Executive Summary

In 2013 the Council on Aging was awarded a “special projects” grant from the Greater Wisconsin Agency on Aging Resources (GWAAR) to collaborate with the University of Wisconsin Medical School on a Community Academic Aging Research Network project called “Sit Less, Live Better.” GWAAR is awarding the Council on Aging additional Title III-D funds this year to continue this research project which tests the effects of reducing sedentary behavior in older adults. The first phase of the project showed remarkable improvement in the well-being of the participants. It is hoped this second testing, with two additional groups, will provide a positive correlation between less sitting time and improved health indicators.

No county funds are required.

Executive Summary

Medicare Part A pays for short-term stays for residents coming from a qualifying hospital stay to receive skilled nursing and/or therapy services. Reimbursement for each resident is based upon the services provided and reflected on the Minimum Data Set. That information establishes a Resource Utilization Group (RUG) category and sets daily payment.

Over this year, we have seen an increase in both the number of Medicare resident days and the acuity of these residents resulting in higher Medicare expenses and higher Medicare revenue. This budget amendment will increase line items for both Medicare revenue and Medicare expense to reflect these changes. The amendment is budget neutral.

LONG TERM FINANCIAL STABILITY OF THE
PURCHASE OF AGRICULTURAL CONSERVATION EASEMENT PROGRAM (PACE)

WHEREAS, the Rock County PACE program’s intent is to identify productive agricultural parcels in
the highest priority areas of the county, as determined through the program manual, and purchase
agricultural conservation easements from willing landowners on the specified parcels; and,

WHEREAS, the Board of Supervisors has supported this program through various resolutions
including the program launch to financial support as demonstrated in the following whereas clauses;
and,

WHEREAS, the Board of Supervisors adopted Resolution 09-2B-219 which allocated one half of the
ATC Environmental Impact Fee for a utility project, which amounted to $740,000 being allocated to
the PACE program; and,

WHEREAS, the Board of Supervisors adopted Resolution 09-6B-311 approving the Rock County
PACE Program to commence with the formation of the PACE Ad Hoc Committee; and,

WHEREAS, the Board of Supervisors adopted Resolution 11-1A-250 approving the start of the PACE
program and approval of the program manual; and,

WHEREAS, the Board of Supervisors adopted Resolution 12-11D-179 which allocated $228,000 to
the PACE program from the sale of 5 additional acres of the Rock County Farm to the GOEX
Corporation for the construction of a new manufacturing plant; and,

WHEREAS, the Land Conservation Committee (LCC) requested staff to provide a review of the
PACE program financial status as it relates to short term goals and long term stability of the program
and present findings to the LCC; and,

WHEREAS, the Land Conservation Department (LCD) conducted the internal analysis of the program
funding and presented the preliminary findings to the LCC, after which the LCC directed staff to
consider three stable funding sources. These sources include: the rent receipts from the county farm
lease, sales tax receipts and the tax levy; and,

WHEREAS, the LCC also identified proceeds from future sale(s) of county owned real estate
holdings, with the exception of park land and IN REM properties, as an additional funding source.
However this source is unstable at best; and,

WHEREAS, at its August 2014 meeting the Rock County PACE Council recommended easements to
be purchased on four properties totaling 412.5 acres in 2015, which will reduce the account balance for
the program to approximately $40,000; and,

WHEREAS, the LCC concludes that to continue the Rock County PACE program into the foreseeable
future, the LCD must request financial assistance from the Board of Supervisors with an annual budget
appropriation of $200,000 commencing with the 2015 budget; and,

WHEREAS, the funding sources to be used during any given year, will be at the discretion of the
County Administrator and approved by the County Board through their annual budget process.
NOW, THEREFORE, BE IT RESOLVED that the Rock County Board of Supervisors in session this day of ________, 2014, approves apportioning $200,000 annually to the Rock County PACE program until an alternative outside funding source can be located with final approval through the annual budget process; and,

BE IT FURTHER RESOLVED, that proceeds from the sale of County owned real estate holdings, with the exception of park land and IN REM properties, will be deposited into the PACE account to assure that the short and long term goals of the program are met. If proceeds from said sales are available they should not be used to reduce the annual budget appropriation requested.

FISCAL NOTE:

This resolution appropriates $200,000 to the PACE program annually until the County Board takes action otherwise. Three possible funding sources are mentioned: tax levy, farm lease revenues and sales tax revenues. Since the County farm lease revenue is a direct offset to County levy, any redirected lease revenue would need to be filled with tax levy. The County continues to operate under strict levy limits. Our estimated maximum allowable levy increase for all departments and programs in 2015 is $441,000.

Sherry Oja
Finance Director

LEGAL NOTE:

The County Board is authorized to take this action pursuant to secs. 59.01, 59.03 and 59.51, Wis. Stats. This resolution proposes apportioning $200,000 to the Rock County PACE program annually. While the County Board can take this action, this is a voluntary payment. Unlike a debt service payment, the County Board can depend on financial condition, modify, delete, or increase such payments in the future. This likely could occur during the annual budget process.

Jeffrey W. Kuglitsch
Corporation Counsel

ADMINISTRATIVE NOTE:

As described in the fiscal note, the effect of State-imposed levy limits will restrict the ability of the County to utilize tax levy or County farm lease revenue in 2015. Consequently, if the resolution is approved, the 2015 administrator’s recommended budget would include $200,000 in sales tax revenue for the PACE program.

Josh Smith
County Administrator
EXECUTIVE SUMMARY

The vision and goal statement for the PACE Program is: The Rock County Purchase of Agricultural Conservation Easement (PACE) Program will work in cooperation with local governments to enhance Rock County’s quality of life by building consensus towards a regional vision, to include preservation of agricultural land, the agricultural economy, and the County’s rural character, and responsible growth and development in appropriate areas.

The County Board has supported the PACE Program in the recent past as identified by the numerous resolutions adopted. This resolution requests the County Board to continue the support for the PACE program in the form of an annual budgetary appropriation to the program in the sum of $200,000. This request will allow the program to continue into the future. This request is a direct result of the Land Conservation Committee (LCC) requesting the Land Conservation Department staff to conduct an internal analysis for the PACE program funding, which concluded that the program will exhaust existing funds within two years if additional funds are not allocated to the program. As noted in the program’s manual, this program is not a short term commitment. An American Farmland Trust report dated 2010, identifies numerous local government programs nearing or exceeding their 20th year of operation. The closest long term PACE program is located in the Town of Dunn, Dane County WI.

The LCC, with assistance from the PACE Council, will develop policies that will cap the value of easement purchase price, which will likely be below the USDA-Natural Resources Conservation Service program maximum of 75% of the easement appraised value. The LCC will also establish a cap for the annual acreage allowed into the program or the number of applications approved, whichever is below the established acreage threshold. Other policies and provisions that will increase the cash flow efficiency of this program will be evaluated in the future. These proactive actions/policies are needed to assist with the overall cash flow of the program. Also, the resolution will only be effective until such time that alternative outside funding sources are made available.

The PACE program has a direct and indirect impact to the economy of Rock County, by not only providing a payment to landowners (which can then be used to make future investments in the operation) but also by protecting a valuable resource. Furthermore, by providing local funding for the PACE Program the County is providing the means necessary to secure funding from the federal government. On average, for every dollar the county contributes to the purchase price of an easement, $2.66 has been contributed by the federal government under the USDA-NRCS program. Without a local entity like Rock County to provide the local contribution, those dollars would be going to another area or even another state.

The resolution also requests the County Board to defer the receipts from sales of real estate holdings to the PACE program. Exceptions to this request include any IN REM property and/or any sale of county park land.

APPROVING SETTLEMENT AGREEMENT AND RELEASE WITH HANOVER INSURANCE COMPANY RELATING TO A LICENSE BOND FOR NONMETALLIC MINE RECLAMATION AND AMENDING THE 2014 LAND CONSERVATION BUDGET

WHEREAS, the Land Conservation Department (LCD) is responsible for the administration of the Rock County Non Metallic Mining Reclamation Ordinance (Ordinance); and,

WHEREAS, the Ordinance requires that each operator of a non-metallic mine maintain compliance with Ordinance standards, including providing Financial Assurance issued to the benefit of Rock County to guarantee that the mine site is reclaimed should the operator default on their obligation; and,

EXECUTIVE SUMMARY

The Rock County Nonmetallic Mining Reclamation Ordinance was adopted to ensure that the state-wide reclamation standards are met in Rock County. Nonmetallic mine operations (i.e. sand and gravel and limestone pits and quarries) are required to have reclamation permits in order to be active. One permit requirement is to have financial assurance in place to guarantee that the site is reclaimed if the permit holder defaults on their obligations. Financial assurance can be bonds, letters of credit or a cash deposit. By law, the County must be the beneficiary of these financial guarantees in order to oversee the reclamation regardless of whether the site is operated by the landowner or leased to a third party.

B.R. Amon & Sons, Inc. operated one mine site in Rock County when the company was placed in receivership in the spring of 2013. This site is owned by another party and was leased to Amon. The landowners have since settled their outstanding business dealings with Amon and they have leased the site to another operator to continue the operation. However, a portion of the site that was mined by Amon requires reclamation since it will not be used by the new operator. Hanover Insurance Company, the surety that provided the bond for financial assurance for the Amon permit, has agreed to pay for the work. Since the County is the obligee for the bond, the County will hold the funds provided by Hanover and ensure the work is completed according to ordinance standards. The contractor who holds the lease to the property provided the proposal for work that was approved by Hanover. Once the Settle Agreement and Release document is finalized and the payment is in hand with Rock County, the new lessor will obtain a Reclamation Permit, including providing a new bond to ensure the reclamation of the remainder of the site, before conducting mining operations.

This action approves the agreement, authorizes the County Board Chair to sign the agreement and also approves an amendment to the Land Conservation Department Budget in order to accept the funds from Hanover and to pay the operator for the reclamation work.

Executive Summary

The Council on Aging's nutrition program is currently staffed with one full-time program supervisor. Over the past years, this staff member's time has increasingly been spent doing data entry and other record keeping duties that are required by federal and state funding sources. The distinguishing feature of the Nutrition Program Supervisor's position is the responsibility for planning, coordinating, and maintaining all activities of the nutrition program and assuring the senior meal program is administered according to state and federal regulations. It is essential for this position to be more "hands on" within the program for marketing, on-site management, and in-home visits, which would not allow for enough time to handle the increasing clerical duties required within the role. Due to the needs in and out of the office, I would like to add a .4 Clerical Worker to assist with the everyday record keeping requirements.

There is sufficient funding in the budget to cover the cost of this position for this and subsequent years. No county tax levy is required.

EXECUTIVE SUMMARY

The Communications Center is solely responsible for the infrastructure, operation, and maintenance of the public safety digital radio system in Rock County. After the mandated narrow-banding and digital conversion of our main public safety radio frequencies in 2012, it was determined that portable radio coverage for Rock County law enforcement and fire/EMS agencies had been reduced in several areas of the County. The most predominant problem areas included the City of Edgerton, Mallwood Subdivision, and Highway 51 South along the Rock River in the Towns of Rock and Beloit.

While some of these areas experienced scratchy coverage when they were wideband analog, the combination of narrow-banding and digitalization have caused the signals to be inaudible at times. Narrow-banding reduced the signal strength and the digital transmission reacts differently than analog and no longer becomes scratchy when out of range, it simply drops the transmission (similar to how a digital cell phone works when out of range of a cell tower).

In order to improve portable transmit and receive coverage for these areas, a new communications tower is being constructed in the City of Edgerton. The equipment required to improve the signal strength for law units is a three-site Raytheon digital simulcast system placed at towers in Edgerton, County A/Burdick Rd, and Beloit Mill Street. The quote from General Communications for this system is $133,047.60.

A similar approach was used several years ago to improve transmit and receive coverage on the main fire repeater for the County and that has worked very well. To improve the northern part of the County, an additional Raytheon digital simulcast site will be added to the existing system at the new Edgerton tower. The quote from General Communications for this additional site is $68,886.30.

Total cost of both projects is $201,933.90 to include equipment, licensing fees, installation, programming, and configuration. This project was budgeted and approved for 2014 and there are funds available in the Communications Center budget.

This project was not put out for bid because it is sole source equipment. General Communications is the only certified JPS (Raytheon) service provider in Wisconsin and they hold the maintenance contract for the public safety radio system in Rock County (see attached letter from JPS Communications, Inc.). Approximately 40% of the cost is the licensing fee for the P25 (digital) equipment.

Executive Summary
Approving the Medical Examiner System Transition

The Rock County Board of Supervisors approved the conversion of the Coroner’s Office to a Medical Examiner in January 2011 (refer to Resolution #11-1B-270). One of the major reasons for this decision was to operate in a more efficient, professional manner that would ensure the highest quality of services to the residents of Rock County. The effective date of the change is January 5, 2015, the end of the (now vacant) coroner’s term of office.

The Public Safety & Justice Committee reviewed a staff report on the transition to the Medical Examiner system that summarized two options: 1.) A standalone single county option with a non-physician Medical Examiner and 2.) A proposal from Dane County for providing program management and forensic pathology oversight and services to Rock County.

Both options would be a departure from the current operations along the following areas:

A. Emphasis on case consistency such that the staff person that initially responds to the scene is the same individual that follows the case through closure. This concept results in a staffing model change from per diem deputes to an established full-time and part-time complement of staff.

B. Increase in the number of autopsies conducted. In Dane County’s review of Rock County’s activity, Rock County tends to have a lower level of autopsies conducted as compared to Dane’s experience. Rock County conducts autopsies on 11% of the caseload while Dane County conducts autopsies on 21% of the caseload. The difference can be attributed to Dane County having a forensic pathologist reviewing all cases and making a professional judgment on the need for an autopsy. For comparison purposes, the single county standalone option and Dane County proposal are based upon 85 autopsies. The 2014 budget contained funds for approximately 60 autopsies.

C. All autopsies would be conducted by the Dane County forensic pathologist. Currently, a pathologist based out of Mercy Hospital is used for more routine cases.

Under either of the two options under consideration, Rock County will retain local control of the new Medical Examiner Department. All personnel decisions will be made by Rock County. The physical location of the Medical Examiner Department will be at the Health Care Center.

Both options were presented to representatives from the law enforcement/fire-EMS community and the funeral home industry. Both groups supported the Dane County option.

The Public Safety & Justice Committee selected the Dane County Proposal based upon a higher standard of professional expertise and the positive working relationships experienced by Rock County stakeholders.

An intergovernmental agreement between Rock and Dane County has been developed that delineates the roles and responsibilities of each county as per the proposal supplied by Dane County and is the agreement referenced in the resolution.

Rock County will take the following human resource actions to implement the Medical Examiner system.

1. Abolish the positions of Deputy Coroner Unilateral (7A) $32,764-$39,906 and Chief Deputy Coroner Unilateral (14C) $41,729-$50,800 effective at 11:59 p.m. on January 4, 2015.
2. Establish the following Medical Examiner Department staff positions effective at 12:00 a.m. on January 5, 2015:

<table>
<thead>
<tr>
<th>Position</th>
<th>Pay Grade</th>
<th>Full Time Equivalent</th>
</tr>

<tr>
<td>ME Clerical Worker</td>
<td>Part-time $9.18/hour</td>
<td>40</td>
</tr>
<tr>
<td>Total</td>
<td></td>
<td>3.40</td>
</tr>
</tbody>
</table>

3. Establish a pool of part-time unilateral Medicolegal Investigators at pay grade 19C effective at 12:00 a.m. on January 5, 2015.

Funds have been budgeted in the 2014 budget to accommodate training and any other related costs during the transition period.

EXECUTIVE SUMMARY

This proposed ordinance repeals section 3.104(1) Regulations as to Parking at County Building in Beloit. Since the County no longer owns the building, this ordinance is not needed.

This proposed ordinance also repeals current section 3.212 Fish and Game Restrictions and recreates section 3.212 Shining Animals; Possession of Live Wild Animals. The current ordinance, because of a confusing format and changes in the Wisconsin Statutes it was based upon, became unenforceable. The proposed ordinance preserves the intent of the former ordinance but in a format that provides for clarity and ease of reporting. It is not necessary to spell out each permutation of the statues nor the definitions therein since by publication thereof, each person is conclusively presumed to know what the proscribed activity is.

AMENDING SECTION 1.120 OF THE ROCK COUNTY CODE OF ORDINANCES

The Rock County Board of Supervisors in order to provide clarity and uniformity to the Rock County Code of Ordinances does ordain as follows:

I. Section 1.120 of the Rock County Code of Ordinances shall be amended to read as follow (new language underscored, deleted language crossed-out):

1.120 Amendments

(a) All ordinances passed subsequent to this Code that amend, repeal or in any way affect this Code may be numbered in accordance with the numbering system of this Code and printed for inclusion in this Code. (1) All new ordinances and all amendments to these ordinances hereinafter enacted shall conform to the drafting style and format rules set forth in Part I of the Administrative Rules Manual of the Wisconsin Legislative Council. When subsequent ordinances repeal any chapter, article, division, section or subsection or any portion of a chapter, article, division, section or subsection, such repealed portions may be excluded from the Code by omission from affected reprinted pages; and the subsequent ordinances, as numbered and printed or omitted, in the case of repeal, shall be prima facie evidence of such subsequent ordinances until such time that this Code and subsequent ordinances numbered or omitted are readopted as a new code of ordinances by the County Board.

(b)(2) Amendments to any of the provisions of this Code may be made by amending such provisions by specific reference to the section number of this code in substantially the following language: "That section ______ of the Code of Ordinances of Rock County, Wisconsin is hereby amended to read as follows: . . . ." The new provisions shall then be set out in full as desired.

(c)(3) If a new section not heretofore existing in the code is to be added, the following language may be used: "That the Code of Ordinances of Rock County, Wisconsin is amended by adding a section to be numbered ______, which section reads as follows: . . . ." The new section may then be set out in full as desired.

(d)(4) All sections, divisions, articles, chapters or provisions desired to be repealed must be specifically repealed by section, division, article or chapter number, as the case may be.

II. Section 1.120 shall be effective upon publication.

EXECUTIVE SUMMARY

Currently, there is no standard format for the drafting of ordinances. This has led to difficulty in the interpretation of the ordinances. Additionally, some agencies, notably the Rock County Sheriff’s Office, must report ordinance violations to the State of Wisconsin in a specific format. Variations in the format make this ordinance difficult, if not impossible. Enactment of the ordinance will not change the intent or substance of any existing ordinance but will, over time, bring more clarity to the Rock County Code of Ordinances.

- EXECUTIVE SUMMARY -

AUTHORIZING APPLICATION WITH
WISCONSIN DEPARTMENT OF NATURAL RESOURCES FOR
COUNTY FISH AND GAME PROJECT GRANT FUNDS

Each Wisconsin County is allocated a certain amount of money annually to fund small projects on a 50/50 match basis. Rock County may apply for a maximum of $3,000 in 2015. Parks plans to access this funding source to help pay for invasive species control at Magnolia Bluff Park. Though this funding source requires a 50% match by the County, all time and materials supplied by the Parks and Highway Divisions, as well as other community resources may be used as in-kind match. The Multi-Use Trail group and other volunteers have assisted with various invasive species control projects in the past and have expressed a strong interest in continuing the effort.

The species to be controlled using this grant is primarily buckthorn. For the past few years, we have used these funds for buckthorn and garlic mustard control in Carver-Roehl Park, and we've achieved a noticeable reduction of the invasive species. We feel the time is now appropriate to move these efforts to another area in need, such as Magnolia Bluff, especially as it is a State Natural Area.

EXECUTIVE SUMMARY

AUTHORIZED SALE OF LAND – SHOPIERE SALT SHED

The Wisconsin Department of Transportation (WisDOT) is undertaking a project to widen and improve Interstate Highways 39 and 90 throughout Rock Co. This includes improvement of all the interchanges along the route. Changes are being proposed at CTH S, Shopiere Road, where the County owns property for a salt shed.

WisDOT has determined that narrow pieces of land across the south and west sides of the County’s Shopiere Road Salt Shed site must be acquired. There are proposing a fee taking of 0.048 acres along the south side and a temporary easement of 0.069 acres granted along the west side. A cash allowance is also included for Rock Co. to relocate a small “No Trespassing” sign on the property.

The State has commissioned an appraisal and furnished the County with a copy of it along with their proposed offering. They are offering $3,700 for the land, $250 for the temporary easement and $400 for relocating the sign. Their total offer has been rounded to $4,400.

The County could request a second appraisal, accept the offer, make a counter offer with the intention of a settlement or hold out for condemnation to occur.

Since the WisDOT appraisal was done to normal professional standards and is fair, and the overall interstate project benefits the citizens of Rock Co., it seems pointless to add layers of cost for future proceedings, and should accept the offer.

EXECUTIVE SUMMARY

The 2030 Beloit Area Water Quality Management Plan will provide a policy framework and set of guidelines to enforce the federal, state and local water quality programs in the City of Beloit, Town of Beloit and surrounding the area.

The Rock County Planning and Development Agency was awarded two grants of $15,000 each to write the Plan. These grant awards were comprised of both federal and state funds. Preparation of the Plan was a cooperative effort of the Technical Advisory Committee (TAC) comprised of representatives from Rock County, City of Beloit, Town of Beloit, Town of Rock, Town of Turtle and the State of Wisconsin Department of Natural Resources.

The Sewer Service Area is made up of the Sanitary Districts of the City of Beloit and Town of Beloit. Each district contains one wastewater treatment facility. The past plans in this area include the 1998 Beloit-Clinton Area Water Quality Management Plan and the 1986 Beloit Area Point Source Water Quality Management Plan. The Sewer Service Area plans are part of the comprehensive long range planning completed by the county, city, and townships.

The plan identifies areas that can be developed to provide municipal services to communities in a way that protects public health, environmentally sensitive areas, and the water resources of the State.
