Community Health Education Coordinator Position

Executive Summary

Reducing the leading causes of preventable death and disability, with special emphasis on underserved populations and health disparities – this mission is the perpetual "North Star" for local health departments (LHD). How LHDs achieve this mission has changed significantly over the past decade. Local Health Department focus has moved toward the reduction of providing personal health services and increased focus on emergency preparedness, epidemiology and surveillance, and primary prevention through education. Additionally, there is an increase in collaboration with other agencies and community partners. This new focus characterizes a new role for health departments as the “chief strategists” for a community. Health departments as chief strategists will lead communities’ health promotion efforts by catalyzing, conducting, supporting, and sustaining health protection and promotion activities in partnership with health care clinicians and leaders in widely diverse sectors, including social services, education, transportation, public safety, and community development.

These changing and expanding LHD roles require new and different skills among members of the LHD workforce. Local public health departments serve as the unique and essential component of an integrated health system that looks out for the population as a whole rather than focusing on the health outcomes of the individual alone. In response to the new challenges and opportunities, we must assume greater accountability for the design and development of the overall strategic plan for improving health in Rock County. To do this, we must identify, coordinate, implement and evaluate cost-beneficial prevention programs and activities that do not use public health budgets to provide services that can be provided through health care providers and facilities. We must also ensure a workforce that meets modern demands.

The goal of community-based public health is to increase the quality, availability, and effectiveness of educational and community-based programs designed to prevent disease and injury, improve health, and enhance quality of life. Health educators play a strong role in helping advance this goal. Health educators offer knowledge, skills, and training that complement others whose work impacts human health. Training in core competencies of public health allows health educators to be an asset to the growth and future work for community-based public health workforces. All efforts of a health educator are geared toward examining and influencing the health outcomes of groups of individuals. Health educators advocate for policy that promotes health equity, access to health care, and the ability to make healthy choices. They use skills that help promote population health and positively impact the health outcomes of all community members.

For local public health practice, the scope and content of work to be performed as well as strategies for addressing public health issues are continuously evolving. The Rock County Public Health Department has been undergoing a strategic planning process to inform and guide the department in organizing and structuring the programs and services offered in Rock County. Additionally, the strategic planning process will serve to identify staffing gaps and serve as a template for performance improvement and more effective workforce development. A vacant public health nurse position has presented the opportunity to address the changing public health environment and scope of work as well as align with strategic planning by converting this position to a community health education coordinator position. This proposed change will be cost neutral in the 2016 budget.

Our current staff, including the nurses, feel that health educators should be an essential part of our team, bringing new skill sets to the agency that will enhance our efforts in population-based health. Many LHDs in Wisconsin employ between one and five health educators. Outagamie and Winnebago counties, as well as the City of Milwaukee currently have open Health Education Coordinator positions. Wood, Pierce, and Oneida counties recently filled similar positions.

Executive Summary

Rock County has a known problem with nitrates in groundwater as identified by the Wisconsin Environmental Public Health Tracking Program and data collected by the Rock County Health Department Water Testing Laboratory. The Rock County Health Department has established a strong groundwater testing program and continues to strongly promote private well testing. Educational information is provided to citizens on nitrate health risks and options to reduce their risk based on their nitrate test results. This project is looking to go beyond typical scope of just identifying the problem and relaying the health risks. This project is looking to spatially identify major sources of nitrates contributing to the health risk, land-use activities that may be increasing the nitrate risk, and geologic conditions that significantly contribute to elevated nitrates in the groundwater of Rock County. This project will provide for a better understanding of the nitrogen balance in the groundwater of Rock County. Ultimately, it is hoped that this project will provide the foundation for establishing an online Nitrate Risk Tracking Tool that would greatly assist in educating well users, nitrogen source contributors, well professionals, and policy makers to the cause and effect relationship of the well water nitrate issue in Rock County.

This ‘Nitrate Risk Model’ approach has been initiated in other parts of the country (State of Washington) but has not been utilized in Wisconsin to promote a better understanding of the cause and effect relationship of the nitrate groundwater issue. With this grant, the Rock County Health Department will lay the foundation for development of an online Nitrate Risk Tracking Tool that will assist the community in determining where nitrate risks exist in the county and potential factors as to why the risks are high in certain geographic regions. Decisions on determining future private well locations and well depths would be assisted by information provided by this tool. Practical applications can also be applied to local land use and public well planning.

Executive Summary

The Rock County Sheriff's Office began using the Spillman records management system to store its jail inmate data on December 14, 2015.

Since the purchase of the Spillman jail module, Spillman Technologies has introduced a new module that continuously extracts the data from their system into a Microsoft SQL Server database. By having the data in the SQL Server database, reports can be run that won't cause performance degradation to the system used by the jail and county law enforcement agencies. Additionally, SQL Server allows greater report writing capabilities along with more common tools for data-driven analysis and for building interfaces to other systems.

The software can be installed on a network server already owned by Rock County.

This resolution authorizes the County to issue a Purchase Order to Spillman Technologies for a total not to exceed $23,567 for the purchase and installation of Spillman's Data Replication tool.

- Executive Summary -

The Rock County Board of Supervisors approved a budget amendment on October 8, 2015 to upgrade the Shopiere Shed facility located in the northeastern quadrant of the I-39/90 Interchange at CTH S. This was requested, in part, because the Department of Public Works vacated the Clinton Garage and Salt Shed in October, 2015. This was done to partially accommodate the vehicle and salt storage needs created by the move-out.

The budget amendment authorized $58,200 for completing various upgrades to the facility. Those upgrades included additional electrical wiring to support truck engine heaters and battery tenders, repair of site drainage deficiencies and replacement of deteriorated pavements at the existing salt shed and metal garage building there.

DPW crews have completed all of the work with the exception of the electrical upgrades.

The DPW, in conjunction with the Purchasing Division, solicited bids for electrical upgrades at DPW’s Shopiere Shed.

Staff is recommending the award of a contract to lowest responsible bidder, Westphal and Company, Inc. of Madison, WI in the total bid amount of $14,725.00. No additional funding is being requested at this time.

RESOLUTION
ROCK COUNTY BOARD OF SUPERVISORS

Awarding Contract to Lutheran Social Services for a Clinical Case Manager for Substance Abuse

WHEREAS, there is a significant need identified for immediate treatment and support for individuals with substance abuse problems who wish to move forward in their recovery and engage in treatment; and

WHEREAS, limited community substance abuse treatment resources often lead to waiting lists for treatment services; and

WHEREAS, the Human Services Department desires to contract with LSS to collaborate with law enforcement and other community partners to provide immediate community based outreach and supports, stabilizing case management, and linkage to Substance Abuse treatment for individuals who could not otherwise access care; and

WHEREAS, the Rock County AODA Steering Committee and the Behavioral Health Redesign Steering Committee identified the need for access to immediate AODA supports as a gap in the continuum of care; and

WHEREAS, in response to these identified needs, the Human Services Department requested this position late in 2015 and the position was included in CY2016 adopted budget; and

WHEREAS, the successful responder to the RFQ, LSS, will provide a certified substance abuse counselor to provide support to individuals seeking to address their substance abuse, and work closely with law enforcement, hospitals, treatment providers and Human Services to meet the needs of these individuals while waiting for admission to longer term treatment programs.

NOW, THEREFORE, BE IT RESOLVED that the Rock County Board of Supervisors duly assembled this ___ day of _________, 2016 does hereby authorize a contract with Lutheran Social Services of Wisconsin, not to exceed $60,000 in CY 2016, for a clinical case manager for substance abuse.

ROCK COUNTY BOARD OF SUPERVISORS

AUTHORIZING OVERLAP OF ACCOUNTING SUPERVISOR POSITION FOR DEPARTMENT OF PUBLIC WORKS, HIGHWAY DIVISION

WHEREAS, the Department of Public Works, Highway Division has been informed of the intended retirement of its Accounting Supervisor in 2016; and,

WHEREAS, the duties of the Accounting Supervisor are very specialized and can vary throughout the year, making the training of the job duties complex; and,

WHEREAS, temporarily overlapping a successor employee for orientation and training will help insure accurate financial processing and minimize disruption to our Public Works customers; and,

WHEREAS, the Department has sufficient funds budgeted and available for the double filling of the position.

NOW, THEREFORE, BE IT RESOLVED, that the Rock County Board of Supervisors duly assembled this ______ day of __________, 2016 does hereby authorize temporarily overlapping the Public Works Department Accounting Supervisor position, not to exceed eight weeks.

Respectfully submitted,

- Executive Summary -

The Public Works Department Accounting Supervisor has informally notified the department head of his intended retirement in June of 2016. This professional position requires extensive accounting knowledge and experience. Additionally, because so many of the Department’s accounting practices are dictated by the Wisconsin Department of Transportation Uniform Cost Accounting Manual, there are many specialized funds tracked and account reporting procedures required. Some of these tasks only occur at certain times of the year.

Because of these special job requirement, it is advantageous to bring in the successor employee before the incumbent leaves for the detailed training required to master the duties of the position. The department head has met with the administrator and human resources staff to plan a strategy and map a plan of recruitment for the position.

It was determined that an overlap of the two positions, up to eight weeks, may be needed to successfully accomplish the transition. The anticipated time for recruitment has suggested that the process start in mid-February 2016.

This resolution authorizes up to 8 weeks of double fill of the position for orientation and training. The department is anticipating that the process may take less time, but wants to maintain flexibility should the timeframe not be met. The department anticipated this vacancy in 2015 and included funding for this double fill in its 2016 budget request. No additional funds are being requested at this time.
