The County Board of Supervisors of the County of Rock does ordain as follows:

1. Chapter 4, Part 4, of the Rock County Ordinances shall be amended to read as follows (new language underscored, deleted language crossed-out):

(5) General Provisions

(A) Areas To Be Regulated

This ordinance regulates all areas that would be covered by the regional flood or base flood as shown on the Flood Insurance Rate Map (FIRM) or other maps approved by DNR. Base flood elevations are derived from the flood profiles in the Flood Insurance Study (FIS) and are shown as AE, A1-30, and AH Zones on the FIRM. Other regulatory zones are displayed as A and AO zones. Regional Flood Elevations (RFEs) may be derived from other studies. If more than one map or revision is referenced, the most restrictive information shall apply.

(B) Official Maps & Revisions

The boundaries of all floodplain districts are designated as A, AE, AH, AO or A1-30 on the maps based on the Flood Insurance Study (FIS) listed below. Any change to the base flood elevations (BFE) or any changes to the boundaries of the floodplain or floodway FIS or on the Flood Insurance Rate Map (FIRM) must be reviewed and approved by the DNR and FEMA through the Letter of Map Change process (see sec. 4.408 Amendments) before it is effective. No changes to regional flood elevations (RFE’s) on non-FEMA maps shall be effective until approved by the DNR. These maps and revisions are on file in the office of the Planning, Economic and Community Development Agency, County of Rock. If more than one map or revision is referenced, the most current approved information shall apply.
Approved by: the DNR and FEMA

OFFICIAL MAPS: Based on other studies. Any maps referenced in this section must be approved by the DNR and be more restrictive than those based on the FIS at the site of the proposed development.

Stat. §§ 59.69(10), 87.30 and NR116.15 State Administrative Code, they This section shall apply to all modifications or additions to any nonconforming use or structure and to the use of any structure or premises which was lawful before the passage of this ordinance or any amendment thereto.

II. The amendments to Chapter 4, Part 4, shall be effective upon publication.

Executive Summary
Amending Various Sections of the Rock County Floodplain Zoning Ordinance (Chapter 4 Part 4)

Revisions to the Rock County Floodplain Zoning Ordinance have been drafted to conform to Wisconsin Administrative Code NR 116, the most recent state model ordinance and the minimum standards of the National Flood Insurance Program (NFIP). All communities participating in the NFIP must comply with both federal and state requirements. The purpose of the Floodplain regulations are to: protect life, health and property; minimize public expenditures for costly flood control projects; minimize rescue and relief efforts; minimize business interruptions; minimize damage to public facilities; minimize the occurrence of future flood blight areas; discourage the victimization of unwary land and home buyers; and prevent increases in the regional flood from occurring.

In general, without an approved Floodplain Zoning Ordinance federal flood insurance would not be available in unincorporated Rock County. More specifically, failure to update the Ordinance when deemed necessary and maintain general compliance with the NFIP may prohibit federal officers or agencies from approving any form of loan, grant, guaranty, insurance, payment, rebate, subsidy, and disaster assistance loan or grant, for acquisition or construction purposes with Floodplain areas.

Through this action, various section 4.4 of the Rock County Code of Ordinances will be amended. The revisions include both substantive changes and what would be considered “clean up” type changes. The substantive changes include:

1. Six map panels are being removed because the areas are not within County jurisdiction. These panels were inadvertently included in the Rock County list since 2015 when the maps were last amended.
2. A Letter of Map Revision (LOMR) approved by FEMA is added to the list of official maps. This map revision was necessary due to a bridge project in the City of Evansville, the construction of which changed the Floodplain boundaries up and downstream.
3. Rock County Flood Storage Maps are added to the list of official maps. These maps only effect a small portion of the existing Floodplain Zoning District, primarily in the area around Lake Koshkonong and often in wetlands. The text for the Flood Storage District standards is already included in the Ordinance and does not require amendment. The Flood Storage District specifies certain portions of the area mapped as Floodfringe on the Flood Insurance Rate Maps (FIRMs) that were specially considered in the hydraulic modelling done when the maps were updated in 2015. As the name suggests, the flood water storage capacity in these areas allows for lower predicted Floodplain elevations downstream, which positively impacts property owners both in terms of potential for flood damage and the flood insurance rates. Therefore, the purpose of the Flood Storage District is to preserve and maintain that capacity to an extent that is more restrictive than other areas of the Floodplain.

The draft revisions have been reviewed and approved by the Wisconsin Department of Natural Resources.

Executive Summary

The Rock County Sheriff’s Office, in an effort to make its Sheriff’s Office and patrol deputies safer and more efficient, is purchasing five (5) additional Digital In-Car Video Cameras to go with their current system. This system would allow video footage to be recorded from deputies’ squads while they are patrolling our highways. The footage recorded by this system will often times be used in a court of law as evidence. This evidence would then support the deputies’ actions and the arrests that they make. Mobile Squad cameras have proven time and time again to be a very valuable piece of equipment for the Sheriff’s Office and law enforcement agencies across the county. Currently, the Sheriff’s Office has eighteen (18) of their patrol squad cars equipped with WatchGuard video cameras.

The WatchGuard Video Company employs the industry’s largest engineering team and has invested about $30 million specifically into the development of digital in-car video systems for Law Enforcement. WatchGuard is designed and manufactured in the U.S.A.

The total cost for five (5) additional In-Car Video cameras is $25,975. The funding will come from the Sheriff’s Office 2018 budget.

This is additional equipment to the original bid #2014-54.

Amending Sec. 3 Animals at Large
EXECUTIVE SUMMARY

Amending Section 3.209 of the Rock County Ordinances

This ordinance amendment would expand the authority of the Humane Officer and the Rock County Sheriff's Office with regard to any animal running at large, rather than limiting the ordinance to dogs. From time to time, issues arise with larger animals who are at large and creating a danger to the public as the result of being on highways and not properly controlled.

CREATING A 0.4 FTE PAYROLL SPECIALIST IN FINANCIAL SERVICES

1 WHEREAS, Financial Services processes payroll for the majority of County departments, however, some payroll functions are performed by Rock Haven staff; and
2 WHEREAS, consolidating these payroll functions centrally into Financial Services would provide efficiencies and more opportunities for providing back-ups for these functions; and
3 WHEREAS, deleting the 1.0 FTE Payroll Specialist in Rock Haven and creating an additional 0.4 FTE Payroll Specialist in Financial Services would save the County approximately $61,000 annually; and
4 WHEREAS, the staff member currently in the 1.0 FTE Payroll Specialist position is retiring effective November 2, 2018 and deleting the 1.0 FTE Payroll Specialist position in Rock Haven is being recommended in the 2019 budget; and
5 WHEREAS, creating the 0.4 FTE position in Financial Services in 2018 would allow more time for recruitment and training. This position would be funded by 2018 budget savings in the Financial Services 2018 budget.

EXECUTIVE SUMMARY

Financial Services processes the majority of payroll for the County. However, Rock Haven has a 1.0 FTE Payroll Specialist that splits their time between payroll and accounting functions. It would be more efficient to move the Rock Haven payroll functions to Financial Services. This would allow these functions to be managed by the Financial Services Payroll Manager and provide back-ups to this position by trained payroll staff. The accounting functions of the Rock Haven Payroll Specialist will be able to be absorbed by current Rock Haven accounting staff.

The 2019 budget will recommend the deletion of the 1.0 FTE Payroll Specialist in Rock Haven. In order to have more time for recruitment and training, this resolution requests the Financial Services 0.4 FTE Payroll Specialist position be created in 2018.

This move will save the County approximately $61,000 annually.

SUPPORTING THE PERMANENT REAUTHORIZATION OF THE FEDERAL LAND AND WATER CONSERVATION FUND

WHEREAS, for the past fifty-two years the Federal Land and Water Conservation Fund (LWCF) has been our nation’s most important program for meeting communities’ conservation and recreation needs, from national parks and wildlife refuges, to sacred battlefields and historic sites, to working forests and critical habitat, to neighborhood playgrounds and recreational facilities; and

EXECUTIVE SUMMARY
FOR
Supporting the Permanent Reauthorization of the Federal Land and Water Conservation Fund

For 52 years the Land and Water Conservation Fund (LWCF) has been the country’s most important tool for meeting communities’ conservation and recreation needs, from national parks and wildlife refuges, to scared battlefields and historic sites, to working forests and critical habitat, to neighborhood playgrounds and recreational facilities.

In Wisconsin, LWCF has invested more than $215 million to protect the State’s open spaces to include Chequamegon-Nicolet National Forest, Ice Age National Scenic Trail, Devil’s Lake State Park, High Cliff State Park, and Central Sands Pine Forest, in addition to many community parks and recreation facilities.

The LWCF does not receive taxpayer dollars. It is funded with revenues paid to the government from offshore oil and gas drilling. Outdoor recreation, conservation and historic actives contribute more than a trillion dollars to the US. Economy, supporting over nine million jobs. Wisconsin’s $17.9 billion outdoor recreation industry supports 168,000 jobs which generate over $5 billion in wages and produces over one billion dollars in tax revenue. For example, during the past 10 years $12 million of LWCF money has been matched by $22 million in State and local funds to preserve 57 additional miles of the Ice Age Trail. The Trail is used by over 1,200,000 people each year and provides nearly $114,000,000 in tourist revenue. Sixty-five Wisconsin Cities and Villages are within five miles of the Trail.

This Resolution Supporting the Permanent Reauthorization of the Federal Land and Water Conservation Fund is to have Congress permanently reauthorize the Land and Water Conservation Fund (LWCF) before it expires on September 30, 2018. Without it, the Land and Water Conservation Fund (LWCF) may become history.
