Executive Summary
Amending the Sheriff’s 2015 Budget to
Use Equitably Shared Funds for
Rifles and Vehicle Repairs

The Department of Justice Asset Forfeiture Program is a nationwide law enforcement initiative that removes the tools of crime from criminal organizations and deprives wrongdoers of the proceeds of their crimes. Federal law authorizes the Attorney General to share federally forfeited property with participating state and local law enforcement agencies.

Equitably shared funds are required to be used by law enforcement agencies for law enforcement purposes only. The intent of the transfer is to enhance law enforcement. It must increase, not supplant the recipient’s appropriated operating budget.

For their participation in the program, the Sheriff's Office received funds in the amount of $17,146. The Sheriff’s Office plans to use the funds to purchase tactical patrol rifles for the Special Investigations Unit (SIU) and to pay for repairs on an unmarked vehicle.

Each tactical patrol rifle will be equipped with a 10.5 inch barrel, an EOTech sight, pop-up iron sights, a vertical fore grip with a flashlight, and a collapsible stock. The rifles are similar to the new rifles that the SWAT team will be purchasing from the 2015 budget.

SIU currently has five M-16 Vietnam era rifles assigned to the unit. These rifles are not adequate for deployment in most circumstances that SIU investigators encounter.

The current rifles are long and bulky. The SIU rifles need to be small enough to manipulate and deploy from inside a civilian type vehicle. A short barrel rifle is a better option for clearing a room inside of a residence and for conducting rescues.

The current rifles are difficult to use in low light or dark situations because of the lack of flash lights and because of the design of the sights.

In addition to the rifles, the Sheriff’s Office plans to spend $3,526 on repairs to an unmarked vehicle previously acquired from a seizure.

Executive Summary
Authorizing Acceptance of
2015 Highway Safety Project Grants

Alcohol-Impaired Driving: In Wisconsin during 2013, alcohol was listed as a contributing factor in 4.2% of all crashes. Thirty-five point one percent of all vehicle crash fatalities in 2013 were alcohol-related, resulting in 185 deaths. Alcohol-impaired driving is associated with other high-risk behaviors that increase the likelihood of a crash and of significant injury or death occurring; these include speeding and failure to wear safety belts.

The Wisconsin Bureau of Transportation Safety (BOTS) continues to make motor vehicle and motorcycle crash reduction a priority in Wisconsin, especially where specific events with high participant levels are expected. There is an ongoing need for (HVE) high visibility law enforcement to increase the perception of law enforcement’s presence, with everyone’s safety being of primary concern. Traffic laws will be enforced in and around the cities, towns and general locations where specific events and activities occur.

Additional grant funds of $39,440 are available. Grant funds of $34,441 will be used for wages and related benefits. Grant funds in the amount of $4,999 will be used to purchase law enforcement equipment. In this case, the Sheriff’s Office will purchase an In-Squad Video Camera with accessories.

The In-Kind match will be $9,860.

EXECUTIVE SUMMARY

Rock County Transit operates a fleet of lift-equipped vehicles to provide door-to-door transportation for persons who are elderly and/or have disabilities. The fleet includes two buses that are in good operating condition except for the wheelchair lifts. Without working lifts it is difficult to schedule these vehicles for use. One bus is a model year 2010 and one is model year 2011. The bid requested proposals for the removal and disposal of the current lifts and installation of Ricon S-Series Model S5510 lifts in both buses. These lifts are the most efficient and maintenance free on the market and will accommodate the weight of most large wheelchairs.

A&J Mobility from McFarland, Wisconsin provided the lowest responsive proposal to the bid request.

Executive Summary for Expansion of the County’s Storage Area Network

As an IT capital project included in the 2015 budget, this is the second of a two-part expansion of the County’s storage area network (SAN) designed to address the County’s rapidly growing storage requirements for both structured and unstructured County information. The storage area network consists of controllers, magnetic disk drives, and software that represent the primary information storage for the County’s computer systems. The expanded SAN will allow for greater throughput of input/output data operations as well as the necessary increase in raw storage capacity.

This second part of the SAN expansion project consists of the following main components:

- 21 terabytes of additional Hitachi Data Systems raw storage capacity
- Rack-mounting kit
- Installation
- 3 Years Maintenance Support Service
- Shipping.

The SAN is located in the County’s data center at the Health Care Center.

The SAN expansion will cost $29,888.00 and be purchased from AE Business Solutions using the pricing and terms of the State of Wisconsin contract #15-2052.

EXECUTIVE SUMMARY

The Finance Department has a 1.0 FTE Senior Buyer position vacated by a retiring incumbent and is requesting to delete this Senior Buyer position and create a 1.0 FTE Purchasing Specialist position. After reviewing the duties and responsibilities of the Purchasing Unit, it was determined that if we reorganize and shift responsibilities among staff, then a Purchasing Specialist position would meet our needs.

The Senior Buyer position is in Unilateral Pay Range 15 and the Purchasing Specialist position will be located in Unilateral Pay Range 8, therefore these changes will have a positive fiscal impact for the County.
