DATE DRAFTED

AMENDING SECTION 6.123(3)(f) AND SECTION 6.127 AND ADDING SECTION 6.123(3)(g) OF THE ROCK COUNTY ORDINANCES

1. The Rock County Board of Supervisors at its regular meeting this ___ day of ______________, 2018, does ordain as follows:

I. Section 6.123(3)(f) of the Rock County Code of Ordinances shall be amended to read as follows (new language underscored, deleted language crossed out):

6.123 Private Sewage Systems

(3) Sanitary Permits

... (f) A Sanitary permit shall not be issued for a POWTS to serve a structure within the municipal boundaries of a municipality if an area served by a public sewerage system is not available to the subject property. This includes areas outside the controlling municipality’s boundary where legally binding agreements are in place to allow sewer connections outside the controlling municipality without annexation.

II. Section 6.123(3)(g) of the Rock County Ordinances is created to read as follows:

(p) A Sanitary permit shall not be issued for a POWTS to serve in a City of Beloit or City of Janesville 208 Water Quality Plan Sewer Service Area when the municipality provides detailed written documentation to the Public Health Department verifying that connecting to public sewer meets the policy recommendations of the current 208 Water Quality Plan for those municipalities. Any appeal through the Rock County Board of Health, per Section 6.127 of this Chapter, shall be given primary consideration to an existing 208 Water Quality Plan as agreed upon between the municipalities of concern.

III. Section 6.127 of the Rock County Code of Ordinances shall be amended to read as follows (new language underscored, deleted language crossed out):

6.127 Appeals

Any person aggrieved by an order issued pursuant to the authority conveyed by this Chapter may appeal such an order in accordance with sec. 66.124, Wis. Stats., Chapter 68, Wis. Stats., Municipal Administrative Procedures, to the Rock County Board of Health. The Board may affirm, set aside, or modify the order by majority vote. The Board’s decision shall be final and may be appealed to the Circuit Court of Rock County.

IV. Sections 6.123(3)(f), 6.123(3)(g), and 6.127 shall be effective upon publication.
Respectfully submitted,

Josh Smith
County Administrator
AMENDING SECTION 6.123(3)(f) AND SECTION 6.127 AND ADDING SECTION 6.123(3)(g) OF THE ROCK COUNTY ORDINANCE

Executive Summary

The Rock County Public Health Department’s issues private onsite wastewater treatment system (POWTS) permits in Rock County. These ordinance amendments and addition are needed to address agreements in a 208 Water Quality Plan Amendment which was put in place to address the potential denial of POWTS permits in sewer service areas with an currently existing 208 Water Quality Plan but outside municipal boundaries. The City of Beloit and City of Janesville have worked with the adjacent Towns to create amendments to the County 208 Water Quality plan to reflect criteria in which a POWTS permit will be denied based on proximity to existing municipal sewer service, parcel size, and the ability of the municipality to provide sewer service in a timely manner. It is the intent of the Rock County Public Health Department to base permit denials on these agreed upon criteria unless municipalities providing sewer service indicate in writing that they will not or cannot serve a property with sewer service.

Changes to Section 6.127 reflect a correction in a citation of the appeal process based on State Statutes. The previous citation was either incorrect or had changed since the last ordinance update.

RESOLUTION
ROCK COUNTY BOARD OF SUPERVISORS

WHEREAS, Mickey Crittenden began his career at Rock County as the Computer Services Director on October 9, 2000; and

WHEREAS, in the year 2000, the department was called the Computer Services Department consisted of 22 full-time employees and a budget of $668,000 providing support to approximately 350 users; and

WHEREAS, the current staffing is 25.0 full-time employees, amazingly only 3.0 full-time employees more than in 2000 but with a $2.1 million budget and supporting over 1,200 users; and

WHEREAS, Computer Services was renamed the Information Technology Department on January 1, 2003; and

WHEREAS, under Mickey’s leadership, the department:
- pursued an IT strategy that recognized the operational needs of County departments for new systems while never losing sight of the need to use systems to streamline business processes and to drive costs out of operations whenever possible.
- directed and developed an IT staff that has the professional skills and capacity to manage complex and challenging County projects for systems, applications, networks, and phones within project budget parameters; and

WHEREAS, Mickey Crittenden has worked diligently in that position until his retirement on August 24, 2018; and,

WHEREAS, the Rock County Board of Supervisors representing the citizens of Rock County, wishes to recognize Mickey Crittenden for his long, faithful and dedicated service, a total of 17 years and 9 months.

NOW, THEREFORE, BE IT RESOLVED by the Rock County Board of Supervisors duly assembled this ____ day of __________, 2018, does hereby recognize Mickey Crittenden for his over 17 years of service and extends their best wishes in his future endeavors.

Amending the 2018 Human Services Department Budget to Accept CLTS Funding

Executive Summary

The Children’s Long Term Support (CLTS) waiver program makes Medicaid funding available to serve children who have substantial limitations due to developmental, emotional and/or physical disabilities. In 2017, the State of Wisconsin launched an initiative to eliminate the CLTS waiting list of more than 2,200 children across the state. Rock County submitted a plan to the Wisconsin Department of Health Services in September of 2017 to eliminate its waitlist of 181 children by December of 2018. The state has made additional funds available to the Rock County Human Services Department in 2018 based on this plan.

Executive Summary

Awarding the Contract for Storm Damage Repairs at University of Whitewater at Rock County and Rock County Job Center and Amending the 2018 Facilities Management Budget

On May 2, 2018, Janesville experienced a hail storm causing damage to many buildings on the south side. Thirteen (13) roof top condenser units at the Job Center sustained significant damage to the coils requiring replacement. The two cooling towers at the University of Whitewater at Rock County also sustained significant damage requiring the media to be replaced.

Bids were solicited for both locations at the same time allowing contractors to bid on one or both project. The most advantageous outcome for Rock County is to award each project separately to the lowest most responsive and responsible bidder for each location as follows:

- JC Heating and Cooling Inc. of Janesville Wisconsin, in the amount of $26,861.58 plus a $3,000 contingency for the Job Center repairs;

- Tricer Mechanical a division of Total Mechanical Inc. of Janesville Wisconsin, in the amount of $25,700 plus a $3,000 contingency for the repairs at University of Whitewater at Rock County.

Note: These costs are covered by our insurance therefore a Facilities Management 2018 budget amendment is required.

Providing Additional Funding for Veterans Court Drug Testing and Amending the 2018 Budget

WHEREAS, clients in Veterans Court are subject to drug testing in order to hold them accountable to the requirements placed on them by the judge and the Veterans Court team; and

WHEREAS, $10,000 was included in the 2018 budget for this purpose; and

WHEREAS, it was understood that this amount would be insufficient, but it was hoped that the Veterans Administration would approve Averhealth, the County’s contracted drug testing vendor, to be able to be reimbursed by the Veterans Administration for drug testing these clients; and

WHEREAS, the Veterans Administration has not provided such approvals, and does not appear likely to do so in the near future; and

WHEREAS, the Veterans Administration could provide drug testing for Veterans Court clients, but it may not be as frequent as required, would not meet treatment court standards, and would require clients to travel to Madison potentially several times per week; and

WHEREAS, through the first six months of 2018, $12,804 in drug testing costs through Averhealth have been incurred for Veterans Court clients, which results in an annualized estimate of just under $26,000.

NOW, THEREFORE, BE IT RESOLVED, that the Rock County Board of Supervisors duly assembled this ______ day of __________, 2018, that the 2018 Rock County budget be amended to provide an additional $16,000 for Veterans Court drug testing as follows:

DATE DRAFTED

Authorizing a Contract with Baker-Tilly to Conduct an Information Technology Assessment and Amending the 2018 Budget

WHEREAS, Rock County's long-serving Information Technology (IT) Director is retiring; and

WHEREAS, the County will be undertaking recruitment for a new IT Director; and

WHEREAS, during this time of transition is the best opportunity to review operations in anticipation of new leadership; and

WHEREAS, Baker Tilly has familiarity with the County’s IT controls as part of the County’s financial audit; and

WHEREAS, Baker Tilly also can bring additional IT expertise to this engagement; and

WHEREAS, given their familiarity with Rock County operations, Baker Tilly can complete an assessment before a new IT Director is hired; and

WHEREAS, this project will include a review of the department's organizational structure, staff roles and responsibilities, cyber security, strategic priorities, resource allocation, and other topics.

NOW, THEREFORE, BE IT RESOLVED, that the Rock County Board of Supervisors duly assembled this _____ day of ____________, 2018, does hereby authorize a contract with Baker Tilly, not to exceed $30,000, and amend the 2018 Rock County budget as follows:

Josh Smith
County Administrator
Executive Summary

This resolution authorizes a contract with Baker Tilly to conduct an assessment of current operations of Rock County’s Information Technology Department.

Page 10 of the attached proposal notes specific areas that will be considered through an industry-standard approach. In general, the intent is to review the department’s organizational structure, staff roles and responsibilities, resource allocation, and operational processes. In addition, Baker Tilly would evaluate the department’s strategic priorities, such as the County’s approach to cybersecurity.

With the pending retirement of the Information Technology Director, the timing is ideal to bring in an objective third party to evaluate IT operations. Following approval by the County Board, Baker Tilly would commence its review in August and have a draft report available for review near the end of September. This timing will align well and run parallel with the County’s recruitment of an Information Technology Director so that this information will be available for a new Director when he or she starts in the position.

Baker Tilly is uniquely qualified to complete this assessment at this time. As the County’s financial auditing firm, they have familiarity with the County’s organizational structure and IT controls, which will lessen the learning curve, provide better context for recommendations, and improve timeliness of the report. They will also be bringing additional IT expertise to the project through that area of their consulting practice.

The resolution authorizes a contract up to $30,000 for this purpose. The source of funding is the IT fund balance, which as noted in the fiscal note has a fund balance of approximately $3.5 million.

BAKER TILLY

Candor. Insight. Results.
July 27, 2018

Mr. Josh Smith
County Administrator
Rock County
51 S. Main St.
Janesville, WI 53545

Dear Mr. Smith:

Baker Tilly Virchow Krause, LLP, (Baker Tilly) appreciates the opportunity to provide a proposal to conduct a performance review of the Information Technology (IT) Department for Rock County (the County).

Baker Tilly was founded in 1931 with one central objective: to use our industry specialization to help our clients improve their businesses. As one of the 15 largest advisory and accounting firms in the United States, we have strong experience serving public sector organizations, including many in Wisconsin.

We understand you are seeking an assessment of the County’s IT Department to evaluate the Department’s processes and procedures, and overall ability to support the needs of the County. The result of the review will be a set of actionable recommendations that will serve as a roadmap which the County can use to enhance IT performance.

We are eager to demonstrate how Baker Tilly can help you address your needs and achieve your goals. The key factors that differentiate Baker Tilly are:

- **Demonstrated, relevant IT assessment and audit experience.** Baker Tilly has completed over 500 IT assessments and audits. The proposed project team has hands-on experience assessing IT staffing, project management practices, network and systems infrastructure, application management, and governance effectiveness. This deep technical background and practical experience will provide the County with the best available resources to perform the requested assessment. Our experienced professionals hold numerous certifications, including Certified Information Systems Security Professional (CISSP), Certified Information Security Manager (CISM), Certified Information Systems Auditor (CISA), ISO Lead Auditor, Certified Information Technology Professional (CITP) and other technology-focused certifications.

- **Extensive experience with the public sector.** Our devotion to government organizations is manifested in our public sector practice group, a team of more than 220 professionals — including 17 partners — dedicated entirely to serving governmental clients. We understand the issues governments face, providing more than 225,000 hours annually to the public sector.
Mr. Josh Smith  
Rock County

Ongoing collaboration and flexibility. Our approach to developing information systems audits encourages client input, participation in the process, and ownership of the outcomes. We collaborate with you to design and execute the services that best meet your needs. The team will dedicate blocks of time to work on-site, enabling real-time coordination, increasing scheduling flexibility, and improving lines of communication.

I will be your contact for this project. If you should have any questions, please do not hesitate to reach out to me. We appreciate the opportunity to submit our proposal, and we look forward to the opportunity to further discuss our proposed approach with you.

Sincerely,

BAKER TILLY VIRCHOW KRAUSE, LLP

The information provided here is of a general nature and is not intended to address the specific circumstances of any individual or entity. In specific circumstances, the services of a professional should be sought. Tax information, if any, contained in this communication was not intended or written to be used by any person for the purpose of avoiding penalties, nor should such information be construed as an opinion upon which any person may rely. The intended recipients of this communication and any attachments are not subject to any limitation on the disclosure of the tax treatment or tax structure of any transaction or matter that is the subject of this communication and any attachments. Baker Tilly refers to Baker Tilly Virchow Krause, LLP, an independently owned and managed member of Baker Tilly International.
Firm overview

Baker Tilly is a national firm, among the 15 largest professional services firms in the country. Our headquarters are in Chicago, Illinois, and we employ more than 2,700 employees, including approximately 280 partners, serving clients from 32 offices throughout the United States. However, we are a Wisconsin firm at heart, with deep roots in the state and dozens of Wisconsin counties, municipalities and other public entities as clients. You will be served by staff based in our Milwaukee, Madison and Chicago offices.

Baker Tilly organizes our firm by industry specialization rather than service discipline. This sets us apart from other firms because our professionals offer clients a deep understanding of their respective industries and work exclusively with those industries. Your industry-focused team will possess specialized knowledge to help you improve operational efficiencies, tighten processes, and address your unique needs as a government.

Below are some key facts about Baker Tilly:

- Provides a wide range of accounting, tax, assurance and consulting services by more than 2,700 total staff members, including approximately 280 partners
- Ranked among the 15 largest accounting firms in the country
- Largest provider of services to governments in Wisconsin
- More than 800 employees in Wisconsin

Baker Tilly has been in business for more than 85 years — and state and local governments were among our first clients.
Firm information

Public sector practice

We have a formalized public sector service group. This industry specialization approach allows us to provide specialized training and continuing education to our staff, assuring you of a team with the necessary knowledge and skills you desire to identify the strength of internal controls and processes and to identify key indicators that are critical to the County.

Our industry-specific approach will ensure the County is working with a team that is truly dedicated to state and local governments, translating into better service and greater value.

Our specialists keep abreast of the new developments and trends that may impact municipalities and counties and will regularly provide newsletters, trainings and industry alerts that contain updates and answers to your financial and governmental questions.

Our specialists are active in national and state organizations, participate in ongoing continuing education to obtain industry certifications, and speak and author articles on industry trends.

Our devotion to government organizations is manifested in our public sector practice group, a group with a team of more than 220 professionals — including 17 partners — dedicated entirely to serving governmental clients. We understand the issues governments face, providing more than 225,000 hours annually to the public sector. Our extensive experience provides us with the specialized knowledge and insight to find effective solutions. We have been providing financial management and strategy consulting since 1998, and we have been providing consulting services on information systems to counties or other public entities since 2000.

We are one of the few consulting and auditing firms with a state and local government group dedicated entirely to serving governmental clients. Our public sector clients rely on our expertise to meet their specific operational needs. From helping you manage and optimize your resources to clearly and accurately reporting your funding sources and patterns, you can expect a practical approach, technical insight, and a thorough understanding of local government to work on the County’s behalf, delivering the precise services you need, when you need them.
Firm information

Independence

Rock County has been a Baker Tilly client for more than two decades. During our wide-reaching collaboration, we have been privileged to provide you with various services, including financial statement audits, single audits and highway audits.

Baker Tilly is proud to count the County among our public sector clients; however, we recognize that the nature of our current work with you could produce independence issues or the appearance thereof. Specifically, questions may arise pertaining to whether or not Baker Tilly is able to perform both IT assessment services and services requiring independence by the American Institute of Certified Public Accountants (AICPA) and the U.S. General Accounting Office's Government Accounting Standards for the same client.

Standards

The AICPA Code of Conduct Rule 101 – Independence states, "Independence shall be considered impaired if: During the period covered by the financial statements or during the period of the professional engagement, a firm, or partner or professional employee of the firm was simultaneously associated with the client as a Director, officer, or employee or in any capacity equivalent to that of a member of management."

The U.S. General Accounting Office's Government Accounting Standards section 3.4 states, "Auditors should avoid situations that could lead reasonable and informed third parties to conclude that the auditors are not independent and thus are not capable of exercising objective and impartial judgment on all issues associated with conducting the audit and reporting on the work."

The primary question is whether or not Baker Tilly is acting in a capacity equivalent to that of a member of management while performing IT assessment services, and performing services that may cause a reasonable and informed third party to reasonably conclude that the integrity, objectivity or professional skepticism of Baker Tilly has been compromised.

Services requiring independence by the AICPA include all attest engagements, including:

- Audits and reviews
  - Compilations
  - Agreed-upon procedures

Broadly, internal audit services include (but are not limited to):

- Audits focused in information technology processes and controls
- Entity-wide risk assessments
- Audits focused on internal controls over financial reporting
- Audits focused on operational processes and controls
Firm information

Steps to remain independent

Code of Conduct Rule 101 – Independence includes a specific example of internal audit services, which outlines appropriate steps a covered member should take to remain independent. These steps include:

- Ensuring that the client understands its responsibility for directing the internal audit function, including the management thereon
- Ensuring the client designates an individual or individuals, who possess suitable skill, knowledge, and/or experience, preferably within senior management, to be responsible for the internal audit function
- Ensuring the client determines the scope, risk and frequency of internal audit activities, including those to be performed by the member providing internal audit assistance services
- Ensuring the client evaluates the findings and results arising from the internal audit activities, including those performed by the member providing internal audit assistance services
- Ensuring the client evaluates the adequacy of the audit procedures performed and the findings resulting from the performance of those procedures by, among other things, obtaining reports from the member

The member should also be satisfied that the client’s board of directors, audit committee or other governing body is informed about the member’s and management’s respective roles and responsibilities in connection with the engagement.

Activities impairing independence

The following are examples of activities that, if performed as part of the internal audit assistance engagement, would impair independence:

- Performing ongoing monitoring activities or control activities that affect the execution of transactions or ensuring that transactions are properly executed, accounted for, or both, and performing routine activities in connection with the client’s operating or production processes that are equivalent to those of an ongoing compliance or quality control function
- Determining which recommendations for improving the internal control system should be implemented, if any
- Reporting to the board of directors or audit committee on behalf of management or the individual responsible for the internal audit function
- Approving or being responsible for the overall internal audit work plan including the determination of the internal audit risk and scope, project priorities, and frequency of performance of audit procedures
- Being connected with the client as an employee or in any capacity equivalent to a member of client management
Conclusion

Baker Tilly will take the appropriate steps to remain independent and will not engage in activities that it believes would impair independence. We also assume that the County would direct and manage the IT function and would perform the activities under the heading entitled "Steps to remain independent".

Because of this, we do not believe we would be prohibited from performing any aspects of the services within this proposal as defined by the American Institute of Certified Public Accountants (AICPA) as well as the U.S. General Accounting Office’s Government Accounting Standards.
Relevant experience and qualifications

IT audit capabilities and assessment services

Baker Tilly has helped organizations of many types and sizes to assess and improve their use and management of technology, accomplish measurable performance improvements and reduce costs. Our services have helped organizations to:

- Assess how IT processes and infrastructure support the business strategy, objectives and processes
- Develop realistic short-term IT execution plans and long-term strategic IT initiative roadmaps
- Manage operational and analytical information to make better decisions and streamline operations
- Develop strong internal processes for managing IT operations
- Identify strategies for funding IT operations and long-term capital needs

Baker Tilly customizes the scope of its IT assessments to cover IT processes, based on our clients' needs. This will allow us to provide a qualitative analysis that gives the County benchmarks against leading practices and a gap analysis to represent current technological and governance improvement opportunities.

Baker Tilly's IT professionals have performed more than 750 IT audit engagements in the areas listed below, many of which are relevant to the County's goal of developing a strategic plan for potential changes in organization structure, operations, new or emerging technologies, and long-term capital planning.

- Application security
- Change management
- Cloud computing
- Contract compliance
- Desktop management
- Disaster recovery
- Business continuity
- Incident response
- End user support
- Information privacy
- IT effectiveness and governance
- IT internal controls testing
- IT budgeting and capital finance
- IT risk assessment
- IT security
- Mobile device management
- Policies and procedures
- Server administration
- Software selection
- System access control
- System backup and recovery
- System development
- System implementations, changes, and upgrades
- Vulnerability management
Relevant experience and qualifications

Recent IT assessment examples

The tables below are examples of how Baker Tilly has applied our relevant knowledge and expertise recently toward helping clients meet their cybersecurity and IT objectives.

**Organization IT risk assessment**

| Client need | An organization sought to highlight the inherent IT risks facing the organization for leadership and the board, as well as assist the chief audit officer with the development of a multi-year IT audit plan. |
| Baker Tilly solution | Baker Tilly led an organization-wide IT risk assessment. Our specialists interviewed more than 25 members of management, both within and outside the IT group, reviewed more than 50 artifacts, and worked with the internal audit team to identify and rate the major IT risks facing the organization. In addition, Baker Tilly developed a customized risk framework to classify risks based on impact and vulnerability for ongoing use by the organization. |
| Results achieved | The organization gained insights into IT risks and how to mitigate those risks. We gained the respect of IT stakeholders for our team’s technical expertise. |

**Improvement-focused IT risk assessment**

| Client need | An organization sought a risk assessment of its IT function and operating environment. Specifically, they wanted a review of their current-state systems and processing environment and consultative feedback that identified areas of risk and recommended opportunities for improvement. |
| Baker Tilly solution | We conducted a two-phased approach, tailored to the organization’s operating environment and needs. First, Baker Tilly worked with the client to perform a thorough evaluation of their infrastructure, interviewing key personnel and reviewing documentation to gain a high-level understanding of IT systems. Then, we analyzed results and risks were grouped into key areas, which were then prioritized based on importance to the organization. Once analysis was completed, Baker Tilly issued a report to the client that broke down the strengths and weaknesses of the then-IT governance model. Areas for improvement included data management, information security, security awareness and training. Based on the client’s resources and objectives, Baker Tilly also developed a prioritized remediation roadmap with costs was presented it for Board approval. The first remediation project, a comprehensive policy update project, is now underway. |

IT assessment approach

The key to a successful IT assessment is to understand the business processes and their supporting IT systems and applications. Our standard approach ensures the functional and technical environment, as well as the regulatory requirements, are reviewed and understood before initiating the IT assessment.

Key attributes of our proposed approach include:

- Initial scoping and planning to review and confirm key business processes and supporting systems
- Conducting a gap analysis of common processes related to enterprise IT delivery and support (assessment focus areas)
- Ongoing project management and quality assurance activities to monitor project scope, communication, resources, risks and delivery milestones

IT assessment focus areas

Baker Tilly's IT assessment focuses on several areas of enterprise IT process management. In this assessment, we will identify current state practices and assess process performance and evaluate process capability and effectiveness in the following areas:

- IT governance  
- IT strategy  
- Organizational architecture  
- IT project management  
- Database and data management  
- Information security  
- Application development  
- Application management  
- Change management  
- IT procurement and vendor management  
- Help desk  
- Compliance management  
- Computer operations  
- Virus and malware prevention and detection  
- System availability  
- Disaster recovery  
- Incident management  
- Asset management  
- Physical and environmental controls
Project approach

Methodology

Our methodology, illustrated in the following graphics, contains four steps augmented by ongoing collaboration and project management activities to provide the resources and expertise necessary to complete the project objectives. These steps are described in detail on the following pages.

Step I: Planning

We will begin by working with you to agree on the draft report format (if needed) and level of detail and to confirm the project plan, interviews, milestones and timing. Careful planning will help us coordinate our joint efforts, keep the project on track, manage resources and avoid surprises. Key points of planning and coordination include:

- Meeting to kick off the project
- Coordinating milestones and touch points
- Scheduling status meetings
- Reviewing and agreeing on the draft report format, outline and detail
- Notifying stakeholders of the project’s objectives, roles and timing
- Confirming logistics such as workspace, connectivity and supplies

The County and Baker Tilly will jointly identify and refine the list of interviewees so we can make the most efficient use of time by scheduling on-site interviews in advance and contiguously, where possible. We will also work with you to agree on a structure and agenda for interviews. The team will dedicate blocks of time to work on-site at the IT Department to enable real-time coordination and increase flexibility for scheduling.
Project approach

Step II: Information gathering

During this phase, we will review the documentation provided by key stakeholders and will gather additional information to ensure that we understand the County's IS environment and processes by performing interviews with staff, management and executive management. Documentation that we may request includes:

- Organization and IT strategic plans, objectives and goals
- Organization charts, including roles and responsibilities
- IT policies and procedures
- Network diagram, application and database inventory, and other relevant system documentation
- Results of any additional application or security reviews
- Consultant and vendor contracts
- Assurance reports (i.e., SOC 1 and/or SOC 2) reports from vendors

Documentation review

Reviewing existing documentation helps ensure baseline knowledge for interviews. What documentation may be available and most relevant to the assessment will be a topic of discussion with the County.

Interviews

Using our prior experience in performing IT assessments, Baker Tilly will tailor our existing inventory of interview questions based on the roles of individuals being interviewed and the County's specific IS environment.

Our approach to interviews encourages open discussion. Our professionals are trained and experienced at helping participants feel comfortable with sharing their thoughts and concerns by asking unbiased and non-threatening questions — whether one-on-one interviews or group sessions.

Partners, directors and managers typically lead interviews. The most effective interviews begin with open-ended questions about the participants' roles, goals, objectives, challenges, issues and concerns. A free-form discussion with open-ended questions then encourages participants to speak their minds. When coupled with specific questions about operations in a participant's business area, this approach facilitates comprehensive interviews.

We will also work with management to ensure that we understand the County's objectives, opportunities, challenges and concerns as they relate to strategy, financial management and operations.
Project approach

We recommend interviewing management first to discuss:

- Strategic goals
- Major initiatives and challenges
- Recent and planned changes in the IT Department’s processes and systems
- Management’s views of major risks facing the County
- Facilitating consensus on the County’s desired state of technology

Step III: Analysis

Once we complete the information-gathering phase and familiarize ourselves with the IS environment and processes, we will perform a detailed analysis of current IT strategic, operational, and governance activities, compare to leading IT control and governance practices, and identify improvement opportunities. For identified process or control improvement opportunities we will prepare recommendations to enhance the County’s processes or controls. For each recommendation, we will identify any dependencies, as well as assess the potential benefit and the cost/effort to implement in order to provide a prioritized roadmap to the County.

Step IV: Reporting

We will work with the IT Department and County management to develop a deliverable review process that is inclusive, timely, and realistic. Throughout the process, we will meet with the Project Lead and key County and IT Department personnel to obtain feedback prior to finalizing the final report, which will include:

- Executive summary
  - Background
  - Approach
  - Scope
  - Top IT risks and their respective business implications
- Recommendation roadmap
- Detailed observations and IT control findings
Project approach

Ongoing collaboration and project management

We will apply a disciplined approach to managing our effort and delivery to ensure that we are responsive to the County's needs, aligned with the County's culture and organizational values, and conscientious of the sensitivity of information that we are provided.

We look forward to working closely with the project lead, management, and other key stakeholders to provide weekly status updates and communicate next steps and project issues if they arise. Maintaining open lines of communication between Baker Tilly and the County will allow us to be responsive to your needs while understanding and addressing any potential effects on this effort. We believe in regularly communicating with you to ensure that we obtain your perspectives and input for:

- Guiding the scope of our work
- Ensuring that we consider all relevant factors in our analysis
- Confirming the facts
- Incorporating context into our reporting
- Project schedule
Fee estimate

A fair and reasonable fee is foremost in providing the highest quality service. Rock County will receive such a fee from Baker Tilly. We have prepared a fee estimate for the County based on the needs and objectives you have shared with us, as well as on our experience with similar IT assessment engagements.

We estimate fee for this engagement to be $25,000 - $30,000. This estimate is based on the IT process focus areas identified within this proposal. Any out-of-pocket expenses, including mileage reimbursement will be in addition to the fee estimate.

Assumptions

We have used the assumptions below to develop our estimates. To the extent that these assumptions change, fee estimates may change accordingly:

- Baker Tilly will work with the County’s management to validate scope prior to beginning any activities.
- County IT stakeholders will be available as needed throughout the engagement.
- Any changes to these assumptions will require a scope change document that the County and Baker Tilly must approve prior to executing the work. Such changes may result in increased fees.
- Baker Tilly has planned for three to four days of onsite fieldwork to perform the assessment at the County’s office location in Janesville, Wisconsin.
Appendix: Resumes

Thomas R. Wojcinski, CISA, CRISC, CCSK
Principal

414 777 6536
tom.wojcinski@bakertilly.com

Tom has more than 17 years of technology consulting experience. He leads Baker Tilly’s cybersecurity and information technology (IT) risk consulting practice with 80 professionals. Tom specializes in helping clients maximize the confidentiality, availability and integrity of their information assets. His expertise includes: cybersecurity program development and implementation, cybersecurity and IT risk assessments, IT controls and governance, segregation of duties assessment/remediation, and major system implementation risk management. Additionally, he contributes to the leadership of Baker Tilly’s services in the intersection of IT and audit/assurance services with System and Organization Controls (SOC). His client base includes a variety of industries: energy and utilities, healthcare, insurance, manufacturing and distribution, and technology, as well as service providers and financial institutions. He also chairs the Baker Tilly International North American collaboration committee on IT risk and governance.

Specific experience

- Advises clients on designing and enhancing cybersecurity, IT risk, governance and compliance programs, including SOX-related activities such as control process definition, test planning and execution, and control assessment
- Develops programs to address risks presented by large-scale, high-risk corporate IT projects such as new data center development or enterprise resource planning (ERP) application upgrade and migration events
- Oversees IT audit engagements to coordinate, corporate objectives with external audit risks and ensure integration between internal and external audit teams
- Leads engagements to help clients gain insights in increasing IT effectiveness and improve satisfaction with the IT function
- Leads engagements to provide IT internal audit services and meets regularly with audit committees on IT risk topics
- Conducts SAP governance, risk and compliance-based segregation of duties analysis and facilitates remediation workshops to identify access modification requirements
- Directs transition of IT operations and business processes to outsourced service provider, and develops quality/risk monitoring processes
- Provides remediation recommendations and implementation plans to address IT control gaps
- Part of the team that developed Baker Tilly’s approach for SEC client SOX compliance verification

RESOLUTION

ROCK COUNTY BOARD OF SUPERVISORS

Public Works Committee
INITIATED BY
Duane M. Jorgenson, Jr., P.E.
SUBMITTED BY
Duane M. Jorgenson, Jr., P.E.

AGENDA NO. 12.B.1.(1)
RESOLUTION NO. 18-8A-056

APPROVE REVISED RELOCATION ORDER FOR
CTH A (CTH M - E. COUNTY LINE) RECONSTRUCTION PROJECT

WHEREAS, the County has developed plans and specifications for the reconstruction of CTH A between CTH M and the East County Line in the Town of Johnstown; and

WHEREAS, the project requires purchase of right of way and easements to complete the project; and

WHEREAS, the Rock County Board of Supervisors approved a Relocation Order and Right-of-Way Plat on March 8, 2018.

NOW, THEREFORE, BE IT RESOLVED, that the Rock County Board of Supervisors duly assembled this ______ day of ________, 2018, in accordance with Wisconsin State Statute 32.05, does hereby approve the Revised Relocation Order and related Right of Way Plat for the above referenced project; and

BE IT FURTHER RESOLVED, that the Rock County Public Works Committee and Director of Public Works are authorized to enter negotiations for said interests and make minor modifications to the Revised Relocation Order or Right of Way Plat that may become necessary during negotiations; and

BE IT FURTHER RESOLVED, that said Revised Relocation Order and Right of Way Plat shall be filed within twenty (20) days of adoption or modification with the County Clerk and at the Public Works Department.

Respectfully submitted,

PUBLIC WORKS COMMITTEE

Betty Jo Musle, Chair
Brent Fox, Vice-Chair
Brenton DiRicco
Rick Richard
Jeremy Zajac

ADMINISTRATIVE NOTE:
Recommended.

FISCAL NOTE:

Funds are available in DPW-Highway's budget for the purchase of right away for this project.

Sherry Oja
Finance Director

LEGAL NOTE:

The County Board is authorized to take this action pursuant to §32.05(1), Wis. Stats.

Richard Greenlee
Corporation Counsel
- EXECUTIVE SUMMARY -

APPROVE RELOCATION ORDER FOR CTH A (CTH M – E. COUNTY LINE)
RECONSTRUCTION PROJECT

The project design for the reconstruction of CTH A between CTH M and the East County Line is complete. To carry out the project, the County must acquire certain interests in land to reconstruct the road, install culvert pipes, grade ditches and otherwise complete the project. It is required by Statute that the County Board pass a Relocation Order as the first legal step in the process.

Previously, the County Board approved a Relocation Order and Right-of-Way Plat to acquire real estate throughout the CTH A corridor between CTH M and the East County Line. This revision modifies real estate acquisitions due to changes in parcels and parcel boundaries occurring after the initial plat was completed.

This resolution adopts the Revised Relocation Order and delegates responsibility for implementation to the Public Works Committee and Director of Public Works.

EXECUTIVE SUMMARY

Entities that receive federal and/or state funds are required to obtain financial audits (called Single Audits). The audits are required to conform to several standards including (but not limited to): auditing standards generally accepted in the United States of America, Government Auditing Standards, the Uniform Guidance, the State Single Audit Guidelines and any other standards specific to the various grant programs.

Baker Tilly Virchow Krause, LLP (Baker Tilly) has been the County’s auditor for several years and is well qualified to perform the required audits per all applicable standards. Baker Tilly has expertise and experience in providing Single Audit services, has always provided a quality product to the County, and has in depth knowledge of Rock County’s financials. Therefore, the Finance Director recommends awarding Baker Tilly a contract to provide audit services for the County for FY’s 2018-2019.

Baker Tilly has quoted the following fees:

FY 2018 audit services - $103,000
FY 2019 audit services - $105,000

Richard Greenlee
Corporation Counsel
Executive Summary

Awarding the Contract for Exterior Wall Restoration at the Jail

The resolution before you awards a contract for tuck pointing and calking of the exterior masonry walls at the Jail and Pinehurst building. This work is necessary to prevent further deterioration caused by water damage behind the wall. There are currently several water leaks due to the failure of existing mortar and chalk joints.

Bids were solicited with four contractors responding. The Director of Facilities Management and Purchasing Manager both recommend awarding the bid to the lowest, most responsive and responsible bidder, Custom Restorations Inc. from Sussex, Wisconsin in the amount of $147,976. The resolution will also approve a $7,000 contingency fund for any unforeseeable issues that may arise.

Yahara River Basin Adaptive Management Project

WHEREAS, Yahara Watershed Improvement Network (Yahara WINs) approached the Land Conservation Department (LCD) in 2016 to discuss the merits of developing a partnership for the Adaptive Management Program for Rock County's portion of the Yahara River Watershed; and,

WHEREAS, Adaptive Management Projects allows municipalities to implement phosphorus reducing projects within the watershed in lieu of making very expensive upgrades to their wastewater treatment facilities while meeting water quality goals for phosphorus. The most cost effective projects for phosphorus reduction can be found in the implementation of best management practices within the agricultural sector; and,

WHEREAS, through many discussions with Yahara WINs management and Land Conservation Department (LCD) staff a service agreement was developed, outlining all requirements for the programs goals and expectations for both parties, more specifically the agreement requires Yahara WINs to reimburse Rock County for all costs associated with the implementation of phosphorus runoff abatement best management practices and associated costs for staff and support for said project on a dollar for dollar basis; and,

WHEREAS, the Service Agreement was entered into by the Land Conservation Committee (LCC) and Yahara WINs in early 2017, which allowed the LCD to commence with the implementation phase of the Adaptive Management Project in Rock County's portion of the Yahara River Watershed; and,

WHEREAS, since early 2017, LCD staff has engaged landowners who expressed interest in program participation, which has resulted in best management practice installation agreements to be initiated by the land owners and the LCC; and,

WHEREAS, in some instances the BMP costs will exceed the Rock County's set financial thresholds which require additional approvals by the Finance Committee and County Board of Supervisors; and,

WHEREAS, the Rock County Best Management Practice Installation Agreement WINs-01.18 will exceed the aforesaid thresholds to provide funding for the establishment of a water quality harvestable buffer system in the Yahara River Watershed. The mentioned agreement is based on an incentive payment which requires the landowner to operate and maintain the BMP system for a period of fifteen years.

NOW, THEREFORE, BE IT RESOLVED that the Rock County Board of Supervisors duly assembled this ______ day of ______, 2018, approves the incentive payments for Rock County Best Management Practice Installation Agreements WINs-01.18 in the sum of $21,600 and WINs-02.18 in the sum of $12,150 and WINs-03.18 in the sum of $10,125 and WINs 01.17 in the sum of $30,375.
Respectfully submitted,

Corporation Counsel
YAHARA RIVER BASIN ADAPTIVE MANAGEMENT PROJECT
Page 3

Executive Summary

The Yahara River Watershed is threatened by excessive phosphorus from sources identified as agricultural runoff, urban storm water and wastewater treatment plant discharges. The elevated phosphorus levels are a threat to water quality and aquatic life throughout the Yahara Watershed. The Yahara Watershed Improvement Network (Yahara WINS), began in 2012 to reduce all phosphorus loads and meet water quality standards established by the Wisconsin Department of Natural Resources (WDNR). This program employs watershed adaptive management, a strategy in which all producers of phosphorus pollution, point and non-point sources, in the Yahara watershed basin work together to meet water quality goals. This strategy is more effective and less expensive than the sources working separately on individual solutions. Partners in Yahara WINS include cities, villages, towns, wastewater treatment plants, agricultural producers, environmental groups and others.

Yahara WINS approached the Land Conservation Department in 2016 to discuss the merits of developing a partnership to apply best management practices in Rock County’s portion of the Yahara River watershed. A Service Agreement was entered into by both parties and the Land Conservation Department’s Budget was amended to facilitate the cost share and/or incentive agreements.

Since then, staff has been engaged with various landowners whom have expressed interest in the overall programs goals. Numerous agreements have been signed by landowners who have implemented best management practices. Knowing a few agreements would exceed the financial thresholds established by County Board rules, requiring actions by both the Finance Committee and County Board of Supervisors. Rock County Best Management Practice Installation

Agreements WINS-01.18 and WINS01.17 exceed the established threshold and requires approval from County Board. Also, if the following agreements, WINS-02.18 and WINS-03.18, are financially combined, they will exceed the aforesaid threshold.

Yahara WINS reimburses the County for costs associated with the aforementioned work, on a dollar for dollar basis.

AUTHORIZING SUBMISSION OF 2018 EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT APPLICATION AND AUTHORIZING INTERAGENCY AGREEMENT WITH BELOIT AND JANESVILLE

WHEREAS, the County of Rock, the City of Beloit, and the City of Janesville are eligible, as a unit, to apply for funds from the Edward Byrne Memorial Justice Assistance Grant (JAG) Program for the purpose of preventing and controlling crime; and,

WHEREAS, the U.S. Department of Justice, Office of Justice Programs, Bureau of Justice Assistance has determined that there is a funding disparity between the County and the Cities based on the statutory JAG formula, and due to the disparity, the County and the Cities are required to apply for the award with a single, joint application; and,

WHEREAS, the Rock County Sheriff, the Beloit Police Chief, and the Janesville Police Chief plan to make a joint application in the amount of $32,594 and,

WHEREAS, the municipalities have a written agreement that specifies the distribution of funds as $6,494 for Rock County, $13,700 for Beloit, and $12,400 for Janesville; and,

WHEREAS, the written agreement designates the Rock County Sheriff's Office as the grant applicant and fiscal agent.

NOW, THEREFORE, BE IT RESOLVED, that the Rock County Board of Supervisors duly assembled this______day of__________, 2018, does hereby approve and authorize the submission of an Edward Byrne Memorial Justice Assistance Grant application, and the Chair of the Rock County Board of Supervisors is hereby authorized to sign all necessary documents on behalf of the County of Rock; and,

BE IT FURTHER RESOLVED, that the Chair of the Rock County Board of Supervisors and the County Clerk are hereby directed to execute an Intergency Agreement with the City of Beloit and the City of Janesville that designates Rock County as the grant fiscal agent and specifies how grant proceeds will be shared should the application be funded.

Finance Director

LEGAL NOTE:

The County Board is authorized to take this action pursuant to secs. 59.01, 59.51 and 66.0301, Wis. Stats. The authority to accept grant funds pursuant to sec. 59.52(19), Wis. Stats., necessarily implies the authority to make application for such funds.

Richard Greendale
Corporation Counsel

ADMINISTRATIVE NOTE:

Recommended.

Josh Smith
County Administrator
Executive Summary

Rock County, the City of Beloit, and the City of Janesville are eligible to apply for the Edward Byrne Memorial Justice Assistance Grant, commonly referred to as JAG. Based on a formula funding disparity between the County and the Cities, the municipalities are required to apply for the award with a single, joint application.

The Rock County Sheriff's Office plans to apply for this grant in the amount of $32,594. The Bureau of Justice Assistance will be making awards to assist local efforts to prevent or reduce crime and violence.

Rock County will act as the fiscal agent. The responsibilities of the fiscal agent include filing the application, administering and distributing the funds, monitoring the award, and submitting reports, performance measures, and program assessment data.

The grant application process requires an inter-agency agreement to be signed by each jurisdiction's authorized representative. The agreement specifies the fiscal agent and specifies the division of the grant proceeds. The proceeds will be divided as follows:

<table>
<thead>
<tr>
<th>Location</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Beloit</td>
<td>$13,700</td>
</tr>
<tr>
<td>Janesville</td>
<td>$12,400</td>
</tr>
<tr>
<td>Rock County</td>
<td>$6,494</td>
</tr>
<tr>
<td>Total</td>
<td>$32,594</td>
</tr>
</tbody>
</table>

The Sheriff's Office intends to purchase equipment with their portion of the grant funds.

The grant application must be made available for the County Board to review before the application is submitted to the Bureau of Justice Assistance (BJA). The application will made public, and an opportunity to comment will be provided to citizens.
THE STATE OF WISCONSIN

COUNTY OF ROCK

INTERLOCAL AGREEMENT BETWEEN THE CITY OF BELOIT, WISCONSIN, THE CITY OF JANESVILLE, WISCONSIN AND COUNTY OF ROCK, WISCONSIN

2018 BYRNE JUSTICE ASSISTANCE GRANT (JAG) PROGRAM AWARD ($32,594)

This Agreement is made and entered into this ___ day of __________, 2018, by and between the County of Rock, acting by and through its governing body, the Rock County Board of Supervisors, hereinafter referred to as COUNTY, the City of Beloit, acting by and through its governing body, the City Council, hereinafter referred to as BELOIT, and the City of Janesville, acting through its governing body, the City Council, hereinafter referred to as JANESVILLE, all of Rock County, State of Wisconsin, witnessed;

WHEREAS, this Agreement is made under the authority of Section 66.0301, Wis. Stats.; and

WHEREAS, each governing body, in performing governmental functions or in paying for the performance of governmental functions hereunder, shall make that performance or those payments from current revenues legally available to that party; and

WHEREAS, each governing body finds that the performance of this Agreement is in the best interests of all parties, that the undertaking will benefit the public, and that the division of costs fairly compensates the performing party for the services or functions under this agreement; and

WHEREAS, the COUNTY agrees to provide BELOIT $13,700 from the JAG award for the Crime Prevention/ Equipment Procurement Program and

WHEREAS, the COUNTY agrees to provide JANESVILLE $12,400 from the JAG award for the Crime Prevention/ Equipment Procurement Program and

WHEREAS, BELOIT, JANESVILLE, and the COUNTY believe it to be in their best interests to reallocate the JAG funds.

NOW, THEREFORE, the COUNTY, BELOIT and JANESVILLE agree as follows:

Section 1:
COUNTY agrees to pay BELOIT a total of $13,700 of JAG funds.
COUNTY agrees to pay JANESVILLE a total of $12,400 of JAG funds.

Section 2:
COUNTY agrees to use $6,494 for the Crime Prevention/ Equipment Procurement Program and its administration until the funds are exhausted.

Section 3:
BELOIT and JANESVILLE agree to provide COUNTY with program data and financial data required for reporting purposes, by the fifteenth business day of each quarter until their programs are complete.
Section 4:

All parties to this Agreement shall be responsible for their own actions in providing services under this Agreement. This Agreement represents a cooperative effort by the parties to serve the interests of each party and their constituents. Each party to this Agreement agrees to fully and in all respects indemnify, defend and hold harmless, the other parties from and against any and all claims and liability, including reasonable attorneys’ fees, resulting from all acts, errors, omissions, or other conduct of the indemnifying party, its employees, boards, commissions, agencies, officers and representatives. Each party shall be responsible for the consequences of its own acts, errors or omissions and those of its employees, agents, boards, commissions, agencies, officers and representatives.

Section 5:

The parties to this Agreement do not intend for any other party to obtain a right by virtue of this Agreement.

Section 6:

By entering into this Agreement, the parties do not intend to create any obligations express or implied other than those set out herein; further, this Agreement shall not create any rights in any party not a signatory hereto.

ROCK COUNTY AGRICULTURAL PRESERVATION PLAN 2013 UPDATE
MAP AMENDMENT

WHEREAS, the Wisconsin Legislature adopted the Chapter 91 Farmland Preservation Act as an
incentive for property owners to preserve agricultural land; and,

WHEREAS, the Rock County Board of Supervisors, through Resolution 14-11D-158 (November 20,
2014), adopted the Rock County Agricultural Preservation Plan 2013 Update as an element of the Rock
County Comprehensive Plan, and through Resolution 15-12A-439 (December 10, 2015), and through
Resolution 16-12A-183 (December 15, 2016) amended the Rock County Agricultural Preservation Plan
2013 Update; and,

WHEREAS, the Plan is comprised of the Towns' land use plans then prepared by the Rock County
Planning and Development Agency; and,

WHEREAS, the Plan will help to facilitate Farmland Preservation for the benefit of the citizens and
economy of Rock County; and,

WHEREAS, the Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) has
requested changes to the Farmland Preservation Plan Map for consistency between the Plan and the Town
of Magnolia Zoning Ordinance to allow landowners to receive Farmland Preservation Tax Credits; and,

WHEREAS, DATCP issued an order certifying the Farmland Preservation Plan Text and Map
Amendment under s. 91.16 Wis. Stats. through December 31, 2024; and,

WHEREAS, a Public Hearing was held on August 9, 2018 by the Rock County Planning and
Development Committee.

NOW, THEREFORE, BE IT RESOLVED that the Rock County Board of Supervisors duly assembled
this day of ________________, 2018 does hereby amend the Rock County Preservation Plan

Josh Smith
County Administrator
EXECUTIVE SUMMARY

The Rock County Agricultural Preservation Plan 2013 Update was adopted November 20, 2014 and Plan Map Amendments were adopted December 10, 2015 and December 15, 2016 by the Rock County Board. The purpose of an agricultural preservation plan is to help preserve our high quality agricultural lands and to help farmland owners qualify for the Wisconsin Farmland Preservation Program. The Plan was drafted in accordance with Wisconsin Statutes Chapter 91 Farmland Preservation which requires it, among other things, to “Clearly identify areas that the county plans to preserve for agricultural use and agriculture related uses, which may include undeveloped natural resource and open space areas but, may not include an area that is planned for nonagricultural development within fifteen (15) years after the date on which the plan is adopted”.

Once it was adopted, the Plan provided an opportunity for Wisconsin Farmland Preservation Program financial incentives to farmland owners, who may apply for agricultural preservation income tax credits as part of their Wisconsin income taxes. To claim a tax credit, the landowner must be located in an area zoned on the Town zoning map and certified for farmland preservation on the Plan Map and must have $6,000 in gross farm revenue in the past year or $18,000 in the past three (3) years.

Recently, Planning and Development Agency Staff have assisted the Town of Magnolia with the certification process. In order for the Town of Magnolia to be certified for Farmland Preservation tax credits, the Town Zoning Map and the Rock County Farmland Preservation Plan Map must be consistent with respect to eligible and non-eligible parcels for tax credits. During the Town of Magnolia Zoning certification process, areas of inconsistency were noted. Typically, as the Town reviews their Zoning Map, specific issues arise and changes are made. This potentially creates an inconsistency with the previously adopted Rock County Farmland Preservation Plan Map. In order to resolve these inconsistencies, the Rock County Planning, Economic and Community Development Agency is recommending an amendment to the Farmland Preservation Plan Map.

AUTHORIZATION TO OPT-IN TO FEDERAL CLASS ACTION LAWSUIT INVOLVING THE PAYMENTS IN LIEU OF TAXES ACT (PILT)

WHEREAS, The United States Court of Federal Claims has certified a class action lawsuit in the case of Kane County, Utah v. United States, Case Nos. 17-739C and 17-1991C, following concerns that Congress did not appropriate enough funds to make full payments to eligible local governments for the fiscal years 2015, 2016, and 2017, as required by the Payments in Lieu of Taxes Act (PILT), and

WHEREAS, PILT requires that these federal payments be made to local governments to help offset losses in property taxes due to the non-taxable Federal lands within their boundaries, and

WHEREAS, the Court’s certification of the Kane County case allows local governments to opt in to the case as a member of the class of plaintiffs who have similar claims against the federal government for failing to pay the full amount required under PILT for the fiscal years 2015, 2016, and 2017, and

WHEREAS, to qualify for a potential financial award from the federal government for its share of the class action recovery, Rock County must formally file a Class Action Opt-In Notice Form with the United States Court of Federal Claims by September 14, 2018;

NOW, THEREFORE, the Rock County Board of Supervisors duly assembled this 9th day of August, 2018, does hereby authorize the Corporation Counsel’s Office to complete and file a Class Action Opt-In Notice Form on behalf of the County prior to the deadline of September 14, 2018, as the official act of the County.

Cpt In Payments In Lieu of Taxes Act
EXECUTIVE SUMMARY

In 1976, Congress enacted the Payments in Lieu of Taxes Act (PILT), to compensate local governments for the loss of tax revenues resulting from the tax immune status of federal lands located in their jurisdictions. PILT requires the Secretary of the Interior to make a payment each year to the unit of general local government where federal land, including wilderness areas, national parks, and lands administered by the Bureau of Land Management, are located. The amount to be paid is determined by statutory formulas based on the acreage of the land involved.

In June of 2017, Kane County, Utah, filed a complaint in federal court on behalf of itself and on behalf of all other similarly situated units of local government, alleging that the federal government violated PILT by failing to pay the full amount of payment to which it and others were entitled for the fiscal years of 2015, 2016, and 2017. Kane County requested that the court certify the matter as a class action lawsuit, allowing other units of government to join the lawsuit.

The court certified the matter as a class action lawsuit in April of 2018. The court has not yet determined the amount to which the class as a whole, or any individual class member, was underpaid for the fiscal years of 2015, 2016, and 2017. The court ordered that any unit of local government that received payment pursuant to PILT in the fiscal years of 2015, 2016, or 2017 may participate in the lawsuit by submitting a completed Class Action Opt-In Notice Form by September 14, 2018.

There is no cost for opting in and no risk of any financial obligations for becoming a party to this class action lawsuit. In order to be considered as a party/class member to receive any payment once the court has made that determination, the county must complete and submit the Opt-In Notice by the deadline.

Nick Osborne, Assistant to the County Administrator
DRAFTED BY
July 5, 2018
DATE DRAFTED

URGING THE GOVERNOR AND LEGISLATURE TO PASS LEGISLATION TO SUSTAINABLY FUND WISCONSIN'S TRANSPORTATION SYSTEM

1 WHEREAS, local government in Wisconsin is responsible for about 90% of the road miles in the state; and
2 WHEREAS, Wisconsin's diverse economy is dependent upon county and town roads as well as city and village streets and transit systems across the state; and
3 WHEREAS, while the increase in transportation funding for local government in the last budget was certainly appreciated, many still are not back to 2011 levels when you adjust for inflation; and
4 WHEREAS, Rock County and other local governments continue to struggle to meet even the most basic maintenance needs for our transportation system; and
5 WHEREAS, states surrounding Wisconsin and across the country have adopted sustainable funding plans for their state and local roads; and
6 WHEREAS, Wisconsin will be at a competitive disadvantage if it does not implement a revenue and spending plan that addresses both our Interstates that were built in the 1950's and 60's and our local and state roads; and
7 WHEREAS, levy limits do not allow local government to make up for the deterioration of state funding and
8 WHEREAS, local governments would not be forced to turn to local wheel taxes or increased borrowing or . exceeding their levy limits if the state would finally pass a sustainable funding plan for transportation; and
9 WHEREAS, Rock County recognizes that our state highway and interstate system is the backbone of our surface transportation system and plays a vital role in the economy of Wisconsin. Both local and state roads need to be properly maintained in order for our economy to grow; and
10 WHEREAS, from a competitive standpoint Wisconsin motorists pay significantly less than any of our neighbors when you combine the annual cost of the state gas tax and vehicle registration fees.
11 NOW, THEREFORE, BE IT RESOLVED that the Rock County Board of Supervisors duly assembled this _______ day of ____________, 2018 urges the Governor and Legislature to Just Fix It and agree upon a sustainable solution: one that includes a responsible level of bonding and adjusts our user fees to adequately and sustainably fund Wisconsin’s transportation system.
12 BE IT FURTHER RESOLVED, that the Rock County Board of Supervisors directs the County Clerk to send a copy of this resolution to the Wisconsin Counties Association, Rock County Legislative Delegation and to Governor Scott Walker.
Respectfully submitted,
