March 12, 2009

5. **Approval of Minutes – February 26, 2009.** Supervisors Jensen and Fizzell moved the approval of the minutes of February 26, 2009, as presented. Supervisor Jensen pointed to an error under item 12.I. The second to last paragraph should read $905,988/$905,988, not $905,988/$908,988. ADOPTED as amended by acclamation.

7. **Citizen Participation, Communications and Announcements.** Supervisor Fizzell encouraged Supervisors and others to contribute to the Neighbors Helping Neighbors 2009 Fund drive for the Merrill Community Center. A flyer was provided and donations can be made payable to Merrill Community Center and mailed to 1428 Wisconsin Avenue, Beloit, WI 53511.

Supervisor Jensen pointed out that another Rock County Supervisor has been featured in the Wall Street Journal. Supervisor Marv Wopat was featured in a January 14th, 2009 story titled *Next Benefit to Face the Ax: Matching Gifts Companies Are Now Targeting Programs That Encourage Their Employees to Donate.* ([http://online.wsj.com/article/SB123188973119079037.html](http://online.wsj.com/article/SB123188973119079037.html)) The story highlights Supervisor Wopat’s dedication to the annual “Family Fun Fest” - an annual event benefiting Partners in Prevention, a statewide coalition focused on preventing high-risk drinking among college students, and whether or not the funding will continue to help fund this event.

Supervisors celebrating a birthday in March include Supervisors Wiedenfeld and Yankee.

8.A. **Confirmation of Appointment of Rock County Health Officer.**

Resolution No. 09-3A-221

NOW, THEREFORE, BE IT RESOLVED, that the Rock County Board of Supervisors duly assembled this 12th day of March, 2009, does hereby confirm the appointment of Karen Cain as Rock County Health Officer in accordance with the attached Employment Contract.

Supervisors Brill and Kraft moved the above resolution. ADOPTED by acclamation.

10.A. **Presentation of Jail Project Schematic Design and Phasing Plan.**

Sheriff Spoden opened this presentation by sharing the numbers pertaining to inmate population. On March 12, 2009 there were 482 inmates at the Rock County Jail where the bed capacity is 525, leaving 43 open beds. The reason for this is attributed to alternative programs. On March 12, 2009 there were 107 on electronic monitors, 44 in the Workender program and 48 in the Community RECAP program. Sheriff Spoden is proud to report that Rock County is no longer housing inmates out of county nor are they experiencing the overcrowding once occurring.

Sheriff Spoden wished to express that this presentation is about options and flexibility. In no way is he asking that all five phases of this plan get implemented in this economy, and in no way are he or the presenters stating that each phase is locked in. Rather, the alternative options as well as the flexibility of the phases allow us to do what’s in the best interest of our taxpayers and is merely a baseline, or guide, to begin discussion and is usable by future sheriffs and county board members over a period of many years.

Sheriff Spoden introduced Kurt Berner of Samuels Group, Eric Lawson of Potter Lawson, who is the lead architect in this project, and Kevin Anderson also with Potter Lawson. The presentation included statistics about inmate housing and the implementation of more alternatives to incarceration, resulting in a change of philosophy when planning a jail for the future. For instance, in 2005 there were 516 inmates in the Rock County jail and 25 more being housed out of county and only 11 on alternative programs. Today, there are 482 in-house and 199 on alternative programs with the intent to seek even more opportunities to allow inmates to earn off their fines with less burden on the tax dollar.

The final precursor to unveiling the five phase option to jail renovations was a short discussion of the Pinehurst Building. Pinehurst was built in 1929 and is coming to the end of its useful life. At the same time, Pinehurst houses the Sheriff’s Office, Law Enforcement Services, Communications, Facility Maintenance, Records and includes the RECAP Program as well as some inmate housing. Unfortunately, depending on the timeline decided upon, some maintenance dollars will need to be poured into this facility to maintain services.
Mr. Berner explained that there are currently several upgrades and maintenance items estimated to cost $3,110,359, with water penetration issues being priority one. Site grading, foundation waterproofing and roof replacement/repair were the top three areas of concern. Tuckpointing, HVAC units, ADA upgrades, window replacement, elevator, fire alarm system, E-unit remodel, and building automation were among the other needs. These items will need to be addressed as building inadequacies even if the board decides to do nothing else at this time.

Administrator Knutson was asked how much money collected from the County Sales tax was currently available as well as projections for future revenues. Mr. Knutson informed the board that there is currently about $7.8 million dollars available for capital projects with roughly $4 million expected in 2009, however, the current state of the economy is a factor that could affect that outcome. These funds will be used for the waterline project and building demolition on the campus. However, the majority of the funding is available for the Jail Project.

Phase I includes the removal of the existing Sallyport, Ancilliary area and recreation area. Using as much roadway as possible, a new Sallyport is constructed allowing for bus access, multiple vehicle access and is directly connected to the new booking area and master control. The booking area also allows for intake and release as well as staging for court, etc. Property storage is capable of accommodating over 1,000 beds. Central control and jail administration is designed for future use and also includes a new medical area capable of accommodating current and future needs. The total cost of Phase One is estimated at $8,465,862 and has a project duration timeline of 16-months.

Phase II includes a new housing facility expansion and upgrades to existing building infrastructure. Each floor of the tower has housing pods with 8-person units designed for direct supervision. A mezzanine area allows for 64 beds per floor and each floor has independent space for programming, recreation, medical, video visitation, etc. Moving inmates around the facility is minimized by this design. The tower allows for 192 beds and will replace E & F units. Phase II also includes Geothermal heat, new fire alarm systems, and new building automation in the jail. The total cost of Phase Two is estimated at $17,730,548 and has a project duration timeline of 15-months.

Phase III allows for the construction of a new law enforcement services center, demolition of the Pinehurst building, constructing a new evidence garage, maintenance/equipment and workshop facility, interior renovation of existing kitchen, master control, corridor and construction of kitchen expansion. This phase is estimated at $17,170,041 and has a project duration timeline of 24-months.

Phase IV includes another new 3-story housing tower expansion at a cost of $12,556,819 and has a project duration timeline of 14-months.

The final Phase (V) renovates the existing pods with a scope to be determined in the future and has an estimated cost of $615,000 (2009 dollars) with an 11-month project duration timeline.

The presentation included several floor-plan drawings and design concepts. Discussion and question and answer time was allowed for County Board Supervisors to ask questions and determine next steps.

(Supervisor Knudson left the meeting early)
