Executive Summary

Awarding the Contract for Replacement of the Job Center Parking Lot Lighting

The Job Center parking lot light poles and bases are in poor condition. This project will also separate the Job Center lights from the neighboring property parking lot lights. The lights are metal halide higher energy consuming fixtures and will be replaced with new LED low energy consuming fixtures. Bids were solicited for the replacement of these lights with five qualified contractors responding.

The resolution before you approves contracting the lowest, most responsive and responsible bidder, Guenther Electric LLC of Beloit WI, in the amount of $33,300.

Funds were budgeted in 2017 for this project.

Good Afternoon,

I just wanted to confirm the information discussed with Cory, Phil, the electricians, and myself yesterday morning. We discussed and confirmed the power pole will be moved into the inside wing as identified in the image below for the ease of the electrical and data installation.

Please review and let me know if you have any questions.

Thanks,

Subject: RE: Rock County Job Center Install

Hi Brad,

Yes, we had to stick with the original plan that we reviewed in the meeting a few weeks ago. Unfortunately, there is a specific bracket that secures the power poles to the 3 way connection on the outside of the panel run. If we moved the power poles into the 4 way connection as discussed on Friday, we would need to place a change order and reorder the part for a 4 way power pole connection. Reordering the part could take anywhere from 3-4 weeks resulting in a delay of the installation of the power through the duration of that time. At this point the installation team was instructed to place the power poles at the original location as originally specified to ensure the completion of the work stations by the agreed completion date. If needs be we can place a change order after the completion of the original install.

Please let us know if there is anything we can do to assist or if you have any questions. We are happy to help and work with you to make this project run as smoothly as possible.
