**Update & Change Orders.**

**UW Rock Air Handling Project** Mr. Varga handed out a copy of what had previously been done on this project to date and informed the Committee that they did not receive any bids. He said part of this may be due to the labor shortage and the tight turn-around time.

The Committee commented on the length of time from when the Purchase Order was issued to when the final plans and specifications were received.

The Committee agreed the project should go back out for bid this fall for work to be done over the summer break.

**Discussion on Courthouse Security - Phase II Project Options.** Captain DeRemer briefly went over some of the safety issues within the Courthouse and answered the Committee’s questions.

The Committee discussed short term solutions versus long term solutions; inquired if there would be any short term solutions to put in place until the long term solutions could be funded; and what the various funding options would be.
