Supervisor Homan said we need to make sure we look far enough in the future so we don’t have to readdress the issue in five-to-ten years.

Mr. Smith said there are many moving parts at this time, and costs are driving many of these.

Supervisor Yeomans asked what the chances are of a workplace violence incident and does the County play the odds of safety versus cost.
Captain DeRemer said nothing is ever 100% secure.

Supervisor Heidenreich asked what the life expectancy would be for parking on Options 1A and 1B. He also said we need to make sure the parking structures need to hold a fire truck and meet code.

Supervisor Yeomans said the County needs to look at other means of revenue other than taxes.

Chair Brill said he feels the east underground parking structure needs to be removed.

Chair Brill requested this issue be put on the next agenda for further discussion.

Captain DeRemer said he would recommend either Option 1A or 1B from a security standpoint because it is a matter of when not if.

Supervisor Heidenreich said meetings after hours need to be discussed.
