Supervisor Zajac added that this Committee had wanted to discuss this a bit more before passing the recommendation on to the County Board.

Ms. Wood informed the Committee that the neighbors were still adamant about the green space being taken off the table for use.

ADOPTED.
Courthouse Security Phase II Update. The Committee, Supervisors, citizens and staff discussed various issues and options including: not all the information is in so we cannot make decisions at this time; if Potter Lawson needs to be hired to look at other options for parking; see if the City of Janesville will vacate the section of Wisconsin Street that goes between the existing parking lot and park; the costs for the east parking structures is about $300,000 every five years; see if Potter Lawson would come up with parking options in the current footprint; to have the vehicles for the loading dock use St. Lawrence Ave.; a resolution for additional funds may be needed for the continued work; for the County to look at other parking in commercial areas in the downtown area; move a department(s) out of the Courthouse to other facilities thus reducing the number of employees in the Courthouse; using a corner lot the City of Janesville owns near the Courthouse and/or obtaining a vacant lot nearby to build a parking lot(s); may need permits for employees to park at the Courthouse; make sure there is enough parking so citizens are not displaced from parking; if departments doing more things online would help; using other lots around the area could cause asphalt issues in these lots create future parking problems and/or expenses; wait and see what the Angus Young report shows on the Health Care Center and old Rock Haven buildings to see if can move any departments there; look at long term needs/goals on various departments to see where best fit will be; need to make sure wherever parking is, it needs to be safe to get from there to the Courthouse.

Ms. Wood asked if the turnstiles for employees to go through is off the table. Mr. Smith replied they are still an option.

Supervisor Yeomans said no matter what is done it will be less user friendly, but it is needed for security purposes.

Supervisor Podzilni said he has also received calls from citizens stating the County owns the parkland and should be able to put a parking lot on it. He added the County Board needs to listen to all citizens and try to do what is best for all.

Chair Brill asked to have this item on the next agenda for updates and further discussion.

Communications, Announcements and Information. Chair Brill said he had a request from Supervisor Owens to bring back the design build resolution, make adjustments and send it to the State.
