CONSTRUCTION UPDATE

CTH MM (Emerald Grove Road – CTH M)

August 26, 2016 – September 9, 2016

General Information

Utility Work

- Electrical work should be wrapping up in the next couple weeks.

Construction Activities

- The binder layer (lower layer) of asphalt pavement has been paved.
- The surface layer (top layer) of asphalt is planned to be paved at later date. Due to weather delays over the past few weeks and contractor scheduling for work on the CTH F project, the remaining paving will most likely occur around the same timeframe as paving on the CTH F project. The timeframe for that paving will be provided as we get further into the CTH F project.

** All activities scheduled are weather dependent.*
