- 2000 LATHROP #7581 FD ALUM. MON. NO-24-15W 2675.94 TO ALUM. MON. @ CENTER OF SEC 34 & N89-23-50E 2639.78 TO ALUM MON @ SE COR SEC 34
- 2008 BIRRENKOTT #15991 @ CENTER OF SEC 34 FD 2" IRON PIPE 2675.74 TO FD 5/8 IRON REBAR @ S 1/4 COR SEC 34

FD PIN ON SLOPE OF ROAD. THERE IS ABOUT A 4' DIFFERENCE IN ELEVATION BETWEEN THE RD SURFACE & THE PIN. THE NATURAL GROUND IS ABOUT 2' LOWER THAN THE PIN. IT APPEARS FROM RECORD TIES THAT THE PIN AND SLOPE ARE SLIGHTLY DRIFTING TO THE EAST.

C) Was the corner restored through acceptance of (1) an obliterated evidence location, or, (2) a found perpetuated location?

ACCEPTED FD REFERENCE MONUMENTS & USED RECORD MEASUREMENTS TO COMPUTE THE POSITION OF THE CORNER. THIS POSITION IS N68-46-14W 0.10' OF THE PIN.

D) Describe any material discrepancy between the location of the corner as restored or reestablished and the location of that corner as previously restored or reestablished by distance and direction. Show the discrepancy on the plan view drawing under (a), above. Show the distances between the corner as previously restored or reestablished and (1) the corner as restored or reestablished, and (2) to at least 4 of the witness monuments shown on the drawing in (a), above.

THE POSITION OF THE CORNER IS N68-46-14W 0.10' OF THE PIN. THE PIN AND SLOPE OF THE ROAD APPEARS TO BE SHIFTING TO THE EAST.

(E) Was the corner reestablished through lost corner proportionate methods? If so, show the method, including the directions and distances to other public land survey corners used as evidence or used for proportioning the corner location.

I, **Donald Barnes**, hereby certify that the corner location as identified by the corner code index was determined by me under my direction and control and that this U.S. Public Land Survey Monument Record is correct and complete to the best of my knowledge and belief.
